### F. M. THOMPSON CO., LTD.

Main Store Phone 25 — BLAIRMORE — Greenhill Store Phone 28

## FLASHES

As we go to press, we learn that the date of the provincial election has been set for June the 19th—eight weeks from today.

Another word is to the effect that the miners of Blaimore and Bellevue have completed new agreements with the West Canadian Collieries Limited, and that the miners of the entire district have come to similar terms with the operators.

### SUN IN ECLIPSE MONDAY NEXT

The leading astronomical show of the year will occur on Monday, April 28th, when a total eclipse of the sun will take place.

The total annular eclipse will be seen along a course from San Francisco up through Boise, Idaho; Helena, Montana, and Regina, Saskatchewan.

Pass residents will be able to see the sun at near total eclipse, while further north and west less of the moon's shadow on the sun will be seen. It is expected the eclipse will be seen along the Pacific coast states at noon on Monday, which means that Pass residents should watch for this phenomenon about 1 p.m.

### SIXTH ANNUAL MUSICAL FESTIVAL DECIDED SUCCESS

The sixth annual Crows' Nest Pass Musical Festival concluded last night and throughout was well attended and contested.

The programme opened at the opera house on Monday morning and continued for three days, with competitions in violin, piano, vocal, etc. Miss Margaret Foster, violin teacher, and Mr. Rhyn Janssen, musical critic, of Vancouver, as adjudicators.

Each night, excellent programmes were rendered, with the closing night's programme a fitting climax. Following the programme last night, prizes were awarded the successful competitors.

Time and space this week will not permit our giving a list of awards, but these will appear in full in our next week's issue.

### "HALLELUJAH"

The voice of the colored race sings out gloriously from the speaking screen as "Hallelujah" makes its amazing bow to the world. No picture was ever more keenly awaited than King Vidor's exciting romance. Daring, but true, it pictures in ray dialogue and heart-stirring song, the true life, the reckless loves, the gripping drama of the world's most picturesque people. Come to the ducky ca'arets, the gambling bells, the revivalist meetings, the cotton fields—prepare to attend the picture that is to be the most discussed in years.

Showing on Wednesday and Thursday, April 30 and May 1st, at Cole's Theatre, Bellevue.

### GRADE VIII. EASTER EXAMS

Following are the successful pupils in Grade VIII. Easter Exams:

Over 75%—Dorothy Hamilton (highest girl), Grace Wheatcroft, Ellis Maddison, Leona MacDonald, Caroline Moore, Leslie Ramsey, Doreen Chappell, Evan Gushul (highest boy), Annie Kubik, Marion MacDonald, Frank Morgan, Olga Yanota, Ian Walker, Catherine Feron, Gertrude Gibson, Doris Hales, Sylvia Harrison, Harvey Wheatcroft, Elmer North.

Under 75%—Sidney Emery, Joe Morgan, Philip Houbreg, Sandy Ferguson, Kathleen MacDonald, Emil Misuraca, Henry Lenchua, Jack Scott, Laura Link.

Miss G. Frey, teacher of Grade VIII, put up two Eversharp pencil prizes, which went to Dorothy Hamilton, for the girl obtaining highest

### RAMON NOVARRO'S FIRST ALL-TALKING FILM HAS SIX SONGS FOR STAR

Ramon Novarro in the costumes of the Napoleonic era; reproductions of old French chateaux and gardens; and a romantic plot of the days when to be a Royalist in France meant a life of danger and intrigue, form the basis for "Devil-May-Care," Novarro's first all-talking picture which opens Monday next at Cole's Theatre, Bellevue.

The new Novarro vehicle was made unusually attractive by expert photography and a beautiful sequence filmed in technicolor. Cedric Gibbons, Metro-Goldwyn-Mayer art director, took special pains in reproducing both interior and exterior settings for the romantic film and anyone with an eye for line and design in furniture, rooms and landscapes, will be able to gather considerable information on decorations of the Napoleonic period.

The story, adapted by Richard Schayer, Hans Kraly and Zelta Sear, from a French play entitled "Battle of the Ladies," has all the romance and adventure of a St. Walter Scott novel plus a certain sophistication which makes it acceptable to modern audiences.

Dorothy Jordan, an actress whose work in "Black Magic" and the Fairbanks-Pickford picture "The Taming of the Shrew" brought her to cinema prominence, plays opposite Mr. Novarro. The musical romance was directed by Sidney Franklin, who achieved notable success with his last effort, "The Last of Mrs. Cheyne."

Admirers of Ramon Novarro in his silent pictures will not be disappointed in "Devil-May-Care." His group of six ballads sung by Mr. Novarro were written by Herbert Stothart, co-composer of "Rose Marie."

### VAN DINE'S STORY MAKES GREAT FILM

"The Greene Murder Case" was a great murder mystery story but as a moving picture (and will appear in film form at the Orpheum Theatre, Monday, Tuesday and Wednesday) it is even more gripping, more exciting. The reason for this can be ascribed to the intelligent character portrayals furnished by the actors and the excellent direction of Frank Tuttle.

The plot has to do with the strange killings which occur in the Greene family's household. An elder son, his younger brother and then their mother succumb to the fiendish hand of an unknown murderer.

William Powell, as Philo Vance, is called in on the case by his friend of a former murder mystery film ("The Canary Murder Case") E. H. Calvert, the district attorney. Working on the case with Powell is Eugene Pallette, the practical-minded and blundering comedy detective who was also one of the figures in "The Canary Murder Case."

After a series of unconvincing and thrilling events Powell solves the deep mystery with the savvy and super-intelligence that S. S. Van Dine wrote into this character in his novels. Powell's performance is flawless.

If you like your thrills dished up with machine-gun rapidity, if you like entertainment that keeps your pulses tingling, don't pass up "The Greene Murder Case." It is one of the season's best bets.

Pincher Creek should be highly complimented upon their splendid representation at the Crows' Nest Pass Musical Festival. Pincher talent represented about 50 per cent of the festival programme—and their efforts were not futile, for they carried away the big end of the jewelry.

marks and Evan Gushul for the boy obtaining highest marks.

## COLE'S THEATRE BELLEVUE

### Friday and Saturday - April 25 and 26 "The Show Boat"

Flo Ziegfeld's Famous Musical Comedy

With all the big Stars of the Stage presentation  
**Helen Morgan - Jules Bledsoe - Plantation Singers**  
Bringing you to all the glamour and romance of the Mississippi.  
Come and hear Jules Bledsoe sing "Old Man River."  
Helen Morgan, "B.H."

### Next Monday and Tuesday RAMON NOVARRO

### "Devil May Care"

With Technicolor Sequences

Positively one of the year's outstanding production. This is Novarro's first all-talking and singing production. You'll be surprised.

### Next Wednesday and Thursday KING VIDOR'S "HALLELUJAH"

THE MOST DISCUSSED PICTURE IN YEARS

All Negro Cast

The Literary Digest gives four pages in criticizing this picture of Negro life. The noted Dixie Jubilee Singers are included in the cast.

### Next Friday and Saturday "THE BISHOP MURDER CASE"

It's the only one that's good. It's the only one that's beautiful. It's the only one that's perfect. It's the only one that's everything."

## WORLD HAPPENINGS BRIEFLY TOLD

The 900th anniversary of the Speyer cathedral will be celebrated on July 12, 13 and 14 of this year.

Summer time in England went in to effect at 2 a.m. April 13, and clocks were set one hour ahead.

Pilot Mermoz broke the French duration record in a seaplane, landing after thirty hours, twenty-five minutes and forty seconds in the air.

The salaries and expenses of the pensions appeal board of Canada last year were \$45,010 in excess of the awards they had made.

Production in the cotton and dye industry of Manitoba for 1928 amounted to \$5,043,413, which is a little more than one-fifth of the total production for Canada.

Kaye Don, British automobile racer, has definitely abandoned his plans for attempting to beat the world's automobile speed record at Daytona Beach, Florida.

Marquis still constitutes more than one-half of the western grain crop, growing tests of samples taken from forty-eight cargoes of Canadian wheat exported to England in 1928.

Plans to negotiate a parcel post treaty between Cuba and Canada are being studied by the Cuban state department. The treaty would seek to increase the consumption of Cuban products, principally sugar and tobacco in Canada.

Thirty-four dairy herds qualified this year for honor roll certificates issued by the Department of Agriculture. On this basis of this newly introduced system of recognition 13 herds would have qualified in 1927, and 27 in 1928.

## University Students in Canada

56,642 Students Enrolled At the End Of 1928

Students doing work of university standard and taking matriculation courses in Canada at the end of 1928 totalled 56,642 of whom about 20,900 were women. Of the total 40,987 were full time students, 3,813 part time and 11,603 vacation short course and extension students, 361 being duplicates enrolled in more than one category.

There are 23 universities in Canada, of which six are state controlled. The total teaching staff of universities numbers 4,078, of whom 3,544 are men and 534 are women.

In all the educational institutions of Canada the enrolment totals 2,345,301, of which 2,054,298 attend publicly controlled kindergarten, elementary and secondary schools.

"Willie, didn't I tell you to shut that shutter?" said Willie's mother. "The shutter's shut," replied Willie, "and I can't shut it any shutter!"

Eight ambulance airplanes now operate through the Sahara Desert.

**PHILLIPS**  
Milk of Magnesia  
Few Troubles Due to Acid Indigestion, Heartburn, Headache, Stomach Trouble  
"You will never use crude methods when you know this best method. And you will never suffer from excess acid when you prove out this easy relief. Please send for your own sample now."  
Be sure to get the genuine Phillips' Milk of Magnesia. It's the only one that works. It's the only one that's safe. It's the only one that's gentle. It's the only one that's pleasant. It's the only one that's effective. It's the only one that's reliable. It's the only one that's pure. It's the only one that's clean. It's the only one that's healthy. It's the only one that's strong. It's the only one that's brave. It's the only one that's true. It's the only one that's good. It's the only one that's beautiful. It's the only one that's perfect. It's the only one that's everything."

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way is Phillips' Milk of Magnesia. It has been recommended for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

## SUNDAY SCHOOL LESSON

APRIL 27  
EASTER LESSON

Golden Text: "He is not here: for He is risen."—Matthew 28:6.  
Lesson: John 20:1-16.  
Devotional Reading: Ephesians 1:15-23.

### Explanations and Comments

Mary Magdalene's Discovery Of the Empty Tomb Of Christ, verses 1, 2.—A stone had been placed over the entrance of the tomb in which the body of the crucified Saviour had been laid (Mark 15:46), and the stone had been sealed in a groove at the base of the opening of the tomb. Early on Sunday morning Mary Magdalene came to the tomb with the others, as the "we" in the next verse indicates. She found the stone removed. At once she hastened to tell Peter and John (John always refers to himself in his Gospel as "the disciple whom Jesus loved"). "They have taken away the Lord out of the tomb, and we know not where they have laid Him," she cried.

John's and Peter's Discovery Of the Empty Tomb, verses 3-10.—Peter and John ran to the tomb. John reached there first, and, looking in reverently at the place where the Saviour's body had rested, he beheld only the "linen clothes" in which it had been wrapped. Then impetuous Peter rushed into the tomb and saw a wonderful thing: the linen clothes were rolled up, and the napkin, which had been about His head, was in another place. Leisurely and orderly had been Christ's departure: had others carried off His body the grave clothes would not have been left. Then John also entered the tomb, and the sight struck him: He believed that Christ was risen. "What was it that John believed?" That Jesus had risen. "Surely," he thought, "He had risen. He was therefore the divine Son of God." The conviction thus produced was the origin of his Gospel, the source of a life of loving devotion for the apostle John. C. R. Erdman.

Mary Magdalene's Discovery Of the Risen Lord, verses 11-18.—Mary, who had followed Peter and John back to the tomb, remained outside, weeping. Looking into the tomb she saw two angels clothed in white and sitting where the body of Jesus had lain. The Greek word for "angel" means "one who is sent with a message," and their message for Mary was, "Weep no more; thou hast found what thou wast seeking. There was no cause for weeping, but great reason for rejoicing. The Lord had risen!" "John's insight taught him first to conclude that His Lord had risen; Mary's went further. She sought to satisfy it," for as she turned she beheld Jesus standing. But she did not recognize Him. "Surely," she thought (Matthew 28:17; Mark 16:12; Luke 24:16, 37 and John in 21:4), "speaks of His form as altered. Mary's eyes, moreover, were dim with tears. 'Woman, why weepest thou, whom seekest thou?' John's question, 'Supposing Jesus to be the gardener, or garden-keeper, the only one who would naturally be there at that hour, Mary said to him, 'Sir, if thou hast borne Him hence, tell me where thou hast laid Him, and I will take Him away.' How nature it was that she did not mention Jesus' name; there could be no one else thought of."

"Mary," said Jesus, and "Rabboni," Teacher, she cried. "It was only an instant's work, but all the quick emotions of a life-time were endured. That in a flash the cross was forgotten, the tomb forgotten, the mystery of how the dead could live again was thought of. 'Mary! Master!' Deep in the inner spirit defied all logic and all contradiction. 'I know that my Redeemer liveth.'"

## Along the Frontiers in Manitoba

Manitoba May Develop Salt Water Fishing At Churchill

Manitoba, with Churchill as its seaport, has assumed the status of a Maritime province, and development of an extensive salt water fishing industry is one of the possibilities in the near future. Hon. D. A. McKenzie, Minister of Mines and Natural Resources, prophesied such an industry during an address in Winnipeg. He had been informed by those qualified to speak that there was every prospect of good fishing being conducted on a large scale, with Churchill as the base for the fishing fleets.

## WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists 25c and 75c red pkg.

## Southerners Are Anxious To Visit Canada

Opening Of Hudson's Bay Route Has Been Great Advertisement

Thousands of American tourists from the southern states will visit Canada this year as a result of the advertising given the Dominion through the opening of the Hudson's Bay Railway, stated E. A. McCallum, of Regina, who returned to the city after a three months' vacation spent in Mississippi and Alabama.

"Everywhere I found the greatest interest in Canadian affairs," Mrs. McCallum said. "The opening of the Hudson's Bay route has been a tremendous factor in calling attention to the development in this country. Many of these southerners had had an idea Canada was a land of snow and 60 below zero temperatures. Now they want to see this great country which has all the amenities of the modern world, an ocean outlet at its extreme north."

**Winnipeg Newspaper Union**  
*Jacky*  
(By Anabelle Worthington)

A navy blue silk crepe that expresses simplicity and good taste for mature figure. The circular skirt in wrapped treatment falls in graceful drapery left-side front, giving the figure charming length. The hips are extremely flat. The surplice bodice with collarless neckline, shows lingerie influence in white crepe vestee. It's a stunning dress for street. Style No. 3363 comes in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Printed crepe with plain light weight woolen and crepe marocain appropriate. Pattern price 25 cents. ## Rubber Overshoes For Planes

Lace Over Wings and Prevent Formation Of Ice

Overshoes for aeroplanes—a new method of keeping wings free of deadly ice—were announced at Cornell University, Ithaca, N.Y.

They are a discovery in safer flying announced as a result of "successful tests" in the mid-west.

The overshoes lace over the forward edge of the wing. They are a thin layer of specially vulcanized rubber extending continuously a colorless oil which is the secret of the success. It is announced that the ice does not stick nor the oil "scrub off."

This slippiness alone is insufficient and so the overshoes have a small hose under their striking edge. A slight pulsation of pump driven air in this hose breaks the ice as it forms on the wing edge, and so prevents air from freezing on the forming ice fast against the wing.

## Sodium Sulphate Deposits

Over One Hundred Million Tons Of Natural Hydrous Salts Found In Saskatchewan

As a result of investigation made by the Canadian Government Department of Mines, it has been established that the sodium sulphate deposits in the Province of Saskatchewan contain over 100,000,000 tons of natural hydrous salt. These deposits have been looked on as of great potential value not only to meet commercial requirements in Canada but because of the possibility of developing important export markets. One of the important uses in Canada is in the pulp and paper industry where large tonnages of the anhydrous sodium sulphate or "salt cake" are used in the production of sulphate or kraft pulp.

## Everybody Satisfied

Family Could Enjoy Reading Paper By New Method

The latest invention is a machine which read aloud from the printed page. This should prove a boon to the army of men who have to hurry to work in the morning. They could get their morning paper, set the machine going while they wash in the bathroom, take it to breakfast and let it run till they bid good-bye to their superior halves at the front door; by which time they would have heard the chief news. Then the paper could be left for the ladies of the household to read the shop advertisements, the social news, etc. The whole house would be satisfied.—Montreal Gazette.

## King Buys Stamp Collection

King George V., who is an ardent stamp collector, has purchased the famous Purves collection of Australian stamps, which was awarded the gold medal at the 1928 international philatelic exhibition at Melbourne. The price is believed to have been two thousand pounds. The collection contains examples of all issues, many of which are unique.

**Children CRY for it**  
CASTORIA  
It may be the little stomach; it may be the bowels are sluggish. No matter what coats a child's tongue, it's a safe and sensible precaution to give a few drops of Castoria. This gentle regulation of the little system soon sets things to rights. A pure vegetable preparation that can't harm a wee infant, but brings quick comfort—even when it is colic, diarrhea, or similar disturbance. And don't forsake Castoria as the child grows older. If you want to raise boys and girls with strong systems that will ward off constipation, stick to good old Castoria; and give nothing stronger when there's any irregularity except on the advice of a doctor. Castoria is sold in every drugstore, and the genuine always bears Chas. H. Fletcher's signature on the wrapper.

## Recipes For This Week

(By Betty Barclay)

### VANILLA DESSERT WITH CHOCOLATE SAUCE

1 package vanilla junket.

1 pint milk.

Prepare junket according to the directions on package. Let stand until firm, then chill.

Chocolate Sauce: Melt 1 square unsweetened chocolate in saucepan, placed in large saucepan of boiling water. Add 1 tablespoon melted butter, and when thoroughly blended, pour on gradually, while stirring constantly, ½ cup boiling water; then add 1 cup sugar. Bring to the boiling point and let boil fourteen minutes with ½ teaspoon vanilla.

### BAKED ECONOMY

Into a well-buttered pan put slices of raw peeled potatoes and a little pepper. Then a layer of uncooked, sliced ham. Add another layer of potatoes and ham and pour on this cream sauce (2 tablespoons sour, 1 tablespoon butter, to 1 cup milk). Sprinkle bread crumbs on top and bake in a moderate oven until brown and potatoes are well done. Serve hot. Just enough ham can be used to give the desired flavor, which has the advantage of making a little ham go a long way. For picnics this can be baked at home in a heavy tin dish with a cover and reheated over hot water on a campfire.

Taxes for the relief of the poor have been levied in England since 1573.

Just as it has been for ages, work will continue to be the best exercise in 1930.

### Where Canada Leads

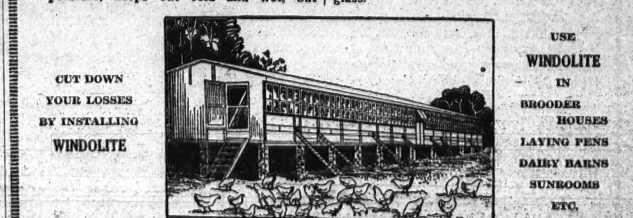

Canada is the largest exporter of wheat among the countries of the world and the second largest exporter of flour, being exceeded only by the United States.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE**  
THE ORIGINAL GLASS SUBSTITUTE  
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE  
Canadian breeders of poultry and live stock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER IX—Continued.

"Not one cent under a dollar seventy-five, Edgar Purdie, and then I'm giving them away. But you needn't feel at all obliged to take them. That darling girl will most the city and knows a bargain when she sees one. Maybe you'd better be getting on. It's quite a ride to South Wickfield, and you've got to go back home for whatever it is you're going to."

"Whoever said I was going to South Wickfield?" burst from the embarrassed deacon. He was almost as red as his new tie. "Look here, Grandma, Davis, don't put those beads away. This is a—part of an emergency. Will you take one fifty, just for the sake of said lady name?" "Well," sighed Grandma, "seeing that you're an old friend, Edgar, and as you said, this is a—particular occasion, I'll let them have 'em. But you'll have to pay me cash. Giving 'em away like this I

"Oh, I'll pay cash!" broke in the deacon eagerly. He pulled out a wallet, deposited the amount in Grandma's hand and put the coveted possession into his pocket, buttoning his coat above it for extra safety. "Good-by, Grandma. Seems to me you'd drowsed an awful hard bargain, but there's times when it pays to splurge a little. You said these beads are stylish?" he added, pausing; and at the old lady's vigorous affirmative he closed the door.

It was as well, perhaps, that he did not stay longer, for no sooner was he safely off than Charman and the doctor burst from their retreat in the next room.

"Your granddaughter seems to be in a state verging on collapse," announced John Carter. "I had hard work to restrain her from spilling that shrewd transaction that you have just terminated so successfully. Believe me, Grandma Davis, you would have shone as a horse trader!"

The old lady chuckled, and commented, as Charman sank limply in the chair recently occupied by her victim.

"I do mean when I've had such a good time. I wish now that I'd asked more, and made him come up on his offer slow and painful. When I remember—"

"But, Grandma," interrupted Charman sternly, though the corners of her mouth twitched upward, "you said you'd ask a dollar, and you asked two!"

"I said I'd make him pay a dollar," corrected Grandma. "Do you suppose, child, if I'd said a dollar in the first place that he'd have given it? You don't know Edgar Purdie like I do. That's why I asked for cash. If Luella refuses him this afternoon we'd have had those beads back on our hands come night, or my name's not Davis. You can't tell me any

thing about Ed Purdie. I went to school with him."

"What shall you do with your ill-gotten gains?" queried the doctor, his eyes twinkling.

Grandma looked thoughtfully from the window as she replied: "I suppose I ought to put it in the foreign mission box; but I guess it'll do full as much good helping to pay the milk man. Here, Charman, you better take it. It's not every day that we make a dollar and a half so easily."

"I've might spend it on a wedding gift for the deacon!" suggested Charman, as she arose and took the profits of the nefarious transaction from Grandma's hand.

"Indeed, we shan't!" snapped the old lady quickly. "I gave him a present when he married his first wife, Emma Dodd, as good a woman as ever drew breath o' life. It was a silver sugar spoon, and came from Portland. Emma was real pleased with it, but six months later Edgar made her shine it up and give it to his second cousin, Etta Stone, who was getting married over at Templeton. —Lizzie Baker was at the wedding and saw it with her own eyes. It was the last wedding present I ever gave to Edgar Purdie, though dear knows I had chances enough as the years passed. Well! Well! We little thought when you asked Jim Bennett to get those beads, Charman, that a good investment we were making!"

"A marvelous investment, consider the fact that Jim paid for the beads himself!" laughed Charman. "I'm going to ride with him this evening. Grandma and I shall accompany him with an account of your trip into high finance."

"You better make him promise not to tell," warned the old lady. "But Sarah Bennett got hold of it, the whole thing would be town talk by night, and like as not the deacon would use me for damages—that is, if he could get Cain Garfield to take the case!"

"Here comes Edward Howe," she added, with a glance from the window. "He's stopped, and is staring at your new office, sonny. You might run out and see if he wants you to help cut off a leg or something. And see here! You ask him to step in a minute if he's got time. I want to tell him how I got the better of Edgar Purdie!"

### CHAPTER X.

Two weeks had passed, busy weeks for Charman, and not devoid of interest. With housewifely instinct she had revelled in putting the finishing touches to the young doctor's office. He heartily approved of the Java cotton for the windows; and a letter to his sister in Boston had been fruitful of results in the shape of a rug that brought an exclamation of rapture from the girl when she first saw it.

"Are you a millionaire?" she gasped when she could find her voice.

He laughed.

"Far from it! But neither am I the world's worst spendthrift, as you might think. This happens to be one of the treasures that fell to my lot when my mother died, and the old home was broken up. It's a Bokhara, and blends with those hangings as if it were made for them. Doesn't it? And behold, fair lady, my sister's donation to my new quarters! Aren't they stunning?"

He held aloft a pair of beautiful brass candlesticks, while Charman exclaimed again. They were in the office, the door wide open to let in the summer sunshine which fell across the shining brass as the girl reached for the treasures and set them on either end of the old mantle.

"I feel that Aladdin himself must be occupying the room where Grandma once kept her 'hired help,'" she remarked whimsically. "All you do is to drop a letter in the Wickfield post office, and lo! rare tapestries and antique brass descend upon us! Have your wishes always been granted with so little effort?"

To her surprise the doctor took her question seriously. "I was looking down at the rug, and when he raised his eyes she saw that her careless words had struck some chord that hurt him."

"Up to a certain age, I suppose they were," he replied thoughtfully, "and yet, the possession of this rug, for instance, is not without a twinge of heartache. It means—my having it at all—that I no longer have my parents—that never again shall I see it in its accustomed place in the big living room at home. It brings up memories that hurt, you see, even though I love them."

"But it is wonderful to have those memories," she said, laying an impulsive hand on his.

He squeezed her hand, and responded cheerfully. "Of course it is! But the first glimpse of that old rug brought everything back, and gave me a silly lump in the throat for just a minute. Really, it looks curious, doesn't it? And it was like this to send the candlesticks. Does the place suit you, Mistress Charman?"

"Isn't it more to the point to ask if it suits you?" laughed the girl as she wiped some dust from the old mantle.

"You know without the asking, I'm sure," he said, and, thanks to her feminine touch, even the waiting room looks livable."

"Those thanks are really due to the wicker chairs you sent for," she corrected. "Yes, I'm satisfied. It looks—Why, here's the doctor!" she broke off suddenly. "Come in, Doctor Howe, and pass judgment on the finished product of my labor."

The old man stepped inside, looking about with shrewd, appraising eyes.

"Not much like my first office," he commented. "It was a room over the old drug store, but as blazes in summer, and proportionately cold when the snow fell. You're a lucky man, John Carter, with a place like this, and Charman Davis to look after it!"

"I realize that," responded the young M.D., with a glance at Charman that brought new color to her cheeks. "At least, I shall have a pleasant place to cool my heels in while waiting for the trusting public to employ me. Do you want my comments on this morning, sir?"

"That's why I stopped. I need your enthusiasm to throw light on a case that's been bothering me for weeks. What to go with us, Charman? It's a beautiful morning for a ride."

The girl looked longingly through the open doorway, but answered: "I couldn't, really. I've a thousand and one things to do this morning. What time shall you be back? If a patient appears in your absence, Doctor Carter, will you keep him here? I have a seat on him!"

"Well, be back at noontime," chuckled the old doctor; and as they started John Carter turned to wave farewell to the girl who stood in the doorway with his new office.

Charman waited there until the shabby car vanished down the elm-shaded street, then turned back to the room behind her, looking down at the Oriental rug with eyes that drank thirstily of its beauty.

(To Be Continued)

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. K. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely clear. This unequalled remedy is worth many times its price to all who use it.

### New Land Map

The Department of the Interior has issued a new edition of its map which shows at a glance the number of quarter sections of Crown land still available in each township. The map also indicates Dominion Land Offices, existing railway facilities in each district and provides the customary information regarding cities, towns and villages.

Hibernation is as common among spiders as among bears.

## YOUNG WIFE STRENGTHENED

After Taking Lydia E. Pinkham's Vegetable Compound

Rancourt, Ontario.—"When I first took Lydia E. Pinkham's Vegetable Compound I had been married about a year and my strength was leaving me on account of my condition. I was only 19 and it was my first child. My mother told me I needed something to steady my nerves and a good chain told me to take the Vegetable Compound. I can say that I did because I strengthened my whole system and now I feel perfectly well and have a sweet little baby."—Miss J. B. STALKER, Rancourt, Ontario.

### Paintings Are Carefully Kept

Canadian War Memorial Pictures In Fire Proof Room at Ottawa

When construction of a new national gallery building is undertaken, provision will be made for the proper housing and display of the Canadian war memorial pictures. This was the answer given by Hon. J. C. Elliott, K.C., Minister of Public Works, in the House of Commons to a question raised by Col. Thomas Cantley. The Canadian national war memorial pictures, except those which now adorn the walls of the Senate chamber, are stored in a fire proof storage room, specially prepared under the supervision of the National Gallery officials, in the Auditorium Building in Ottawa.

The pictures, said Mr. Elliott's answer, are completely protected from any damage due to dampness or any other unfavorable atmospheric conditions. They are not, at present on view, but can be examined by special arrangement.

The pictures referred to have an estimated value of over \$100,000. They were acquired by Lord Beaverbrook's committee during the war and presented by that body to the Canadian people. They are paintings, etchings and pastels of every phase of Canadian war effort, undertaken by many of the most outstanding contemporary artists. For the past ten years this collection has been stored from view due to lack of suitable accommodation.

## KEEP THEM HAPPY BY KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are sick, they are miserable and inclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is the need for an absolutely safe corrective or childhood ailments that Baby's Own Tablets remedy the stomach and bowels and thus drive out constipation and indigestion, break up colds and simple fevers and ailing febrile pains. Conquer them Mrs. W. E. Forsyth, Dover, N.B., writes:—"I would not be without Baby's Own Tablets as I have found them to suit them for fretful, fussy babies who are troubled with colds or sour stomach."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Was Money In Pocket

How They Turned Bad Investment Into Paying Proposition

Abe owned a well known race horse, for which they offered him \$10,000. Abe accepted the offer and a cheque, promising to send the horse next day.

Overnight, however, the horse died. But Abe could not bear to lose his bargain, so he cashed the cheque and sent the horse on.

He heard nothing further, and did his best to avoid Ike. Unfortunately the day came when they met face to face. Abe took the bull by the horns and asked Ike what had become of the horse.

"Well," said Ike, "even I found it was a wonderful horse it was. I raffled it and twenty-five people bought tickets at \$500 each."

"But," said Abe, "didn't anyone grumble?"

"Only the man who won it," replied Ike, "so I gave him my money back."

### Gardening For The Blind

The British Guild of Blind Gardeners urges gardening instruction for all sightless children. Blind gardeners can prune fruit trees, sow seeds and thin out vegetables.

The Manitoba hydro electric power development program for 1930 calls for an expenditure of \$2,000,000 on extending transmission lines into rural areas.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning.

Mrs. Williams—"Oh, Jane, how ever did you go and break the vase?" Jane—"I'm sorry ma'am. I was accidentally dusting it."

Minard's is Best for Grippe.

### Future Of Television

Great Possibilities Are Foreseen By Earl Of Clarendon

The Earl of Clarendon, former chairman of the British Broadcasting Corporation, foresees "staggering possibilities" for television.

He says: "When it is possible to present a stage play or a national event such as the Derby on a small screen which a family or perhaps a small audience in a hall can see, then television will go like wildfire."

While we have some distance to travel before that goal can be achieved enough progress has been made to suggest that it may be attained within the next few years.

### Little Helps For This Week

"God is our refuge and strength, a very present help in trouble."—Psalm xlii.

Console thyself with His word of grace, And cease thy wall of woe; For His mercy never an equal hath, And His love no bounds can know. Lean close unto Him in faith and hope.

How many like thee have found In Him a shelter and home of peace. By His mercy compassed round!—John Greenleaf Whittier.

Where but in Thee have we a covert from storm, or shadow from the heat of life? In our manifold temptations Thou alone knowest, and art ever nigh; in sorrow Thy pity revives the fainting soul; in our prosperity and ease it is Thy Spirit only that can warn us from pride and keep us low.—James Manticus.

Minard's Will Stop That Toothache.

### Will Be Paying Guest

Graf Zeppelin To Pay For Use Of Lakehurst Naval Base

The Graf Zeppelin hereafter will be a paying guest when it visits the United States. During its forthcoming stay the German ship will be quartered at a rate of \$2,000 a day in the big "hotel" at Lakehurst, N.J., naval base.

Other items on the bill include: \$3,000 for preparing the base, \$100 a day for keeping the base in readiness, dating from the hour of the expected arrival, and \$50,000 insurance. A deposit of \$15,000 covering all charges, will be exacted. It will be the first time the government has ever levied a bill against any foreign aircraft for accommodation at a U.S. naval base.

Judge—"You admit smashing the chair on your husband's head?"

Accused—"It was not my intention!"

J.—"You did not want to strike your husband?"

A.—"Yes—but I did not want to break the chair!"

## Treat Colds 2 Ways With One Treatment

Rubbed on throat and chest, Vicks does two things at once:

- (1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and
- (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

**VICKS**  
VAPORUB  
OVER 12 MILLION JARS USED YEARLY

### Two-Way Television

Speakers See Each Other Through Device On Telephone

The curtain veiling the telephone of the future was today aside in a first practical demonstration of a two-way television by the American Telephone and Telegraph Company.

Users of the device, described as the "incomophone," looked each other directly in the eye as they conversed, two and one-half miles apart.

It was a demonstration of the progress in approaching the day when it is hoped to be able to see the person at the other end of the telephone lines.

## Minister, Run-Down In Health, Gains 7 lbs. in 3 Weeks

Rev. W. H. Taylor writes: "After a 7 weeks' revival campaign I was entirely run-down and losing flesh rapidly. I decided to give Ironized Yeast a week's trial. After 2 weeks I found my strength returning and the tired feeling gone. In 3 weeks I had gained 7 lbs. and was joyful again."

Imagine just 3 weeks to change from a "sallow" tired person to a strong, well-filled-out man or woman. Egly healthful yeast. Ironized Yeast because sound and chubbiness. Tired feeling disappears. It cleans skin clear.

Only when yeast is ironized is it most effective—for iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant-tasting tablets. Safe for everybody. Never cause gas or bloating, no harmful drugs.

Go to any drugstore today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, your money back instantly from manufacturer.

NOVEL SUGGESTION TO THE  
POPULAR MAIL ORDER HOUSE

A Lethbridge housewife, having received an urgent letter from a mail order house to avail herself of sundry of their bargains, takes the unique method of publishing a reply in the Lethbridge Herald. Her arguments are good. She says:

"I would love to get some of your bargains, but if I did, I couldn't pay my grocery bills. Then the grocer couldn't pay my husband for the lawsuit he won for him. And neither of these men could pay their taxes. The grocer says he has to carry people who haven't the ready cash, and if he can't pay taxes, then there can't be the local improvements.

"I begin to wonder if mail order houses shouldn't take a share in paying taxes in the places where they do business. If I send you a large mail order, I am not doing my business with the man who helps support my church, the man who helps in inter-town sports, who tries to keep his home and street looking nice, who contributes to concerts, who buys the tickets that I sell in aid of this and that. There are our local whist drives and bazaars and dances and games. I never see you there, but I do see the local merchants. Don't you think your firm should at least, buy tickets for dances and things, and contribute to the church from whose members you get most business? Don't you think you should pay some of our taxes? If the rest of us didn't pay taxes, we wouldn't be here for you to do business with.

"I should like to introduce a motion at our next women's meeting that you should be asked to pay taxes in proportion to the business which you take out from our town. How about it?"

## HINTS FOR THE MOTORIST

Slow up at all turns on the road. An extra fan belt in the car is a good investment.

Back pressure from the muffler will cause valve trouble.

Wheel bearings can be ruined if the front wheel nut is too tight.

Keep brake lever contacts clean and even for good engine operation.

A carburetor cannot be adjusted properly if the spark plug gap is not correct.

Tops of cars never rot or leak if kept clean and covered with a liquid dressing.

Gear noise of a crashing, grinding quality, is seldom produced unless the gears concerned have missing teeth or very badly chipped ones.

A "galloping" engine is caused by a too rich mixture of gas. When the mixture is too lean, the engine will "cough."

Squeaks and rattles may be eliminated by attention to door hinges, floor boards, door bumpers, locks, windstrips, spring clips, shackle bolts, and a general tightening of the body.

## Awaiting Developments

A negro was a regular visitor to the local library, where it was noticed he always took the same book, opened it eagerly, and then burst into hearty laughter.

The attendant's curiosity being aroused, he looked over the visitor's shoulder and noticed the picture of a small boy being chased by a bull.

The attendant was about to ask what there was to laugh at, when the negro chuckled: "Golly! 'e ain't caught him yet!"

SHRINERS' CONVENTION  
IN TORONTO

Shriners all over the continent are following with interest the preparations for the great June convention in Toronto, which will be the largest convention assembled anywhere in the world. From all indications, the number of visitors attending this convention will be from 60,000 to 100,000—about half the present population of Toronto.

It is a five-day convention and the housing problem alone is taking months of preparation. The 800 pullman coaches expected from the more distant states will furnish living quarters. Every hotel in the city is under contract, as well as the University and College residences and fraternity homes. Part of the Exhibition buildings will be transformed into sleeping dormitories to accommodate 4000 or 5000 Shriners. The uniformed bodies will be assigned to the new building at Rameses Oriental Gardens. Others will be housed on lake steamships. Appeals will also be sent to all Masons of the city to assist.

There will be at least 75 bands present and an unprecedented programme of entertainment is planned.

COAL MINING IN CANADA  
(From The Albertan)

Editor The Albertan: Would you allow me space in your valuable columns to make a few comments on conditions prevailing in Canada at the present time.

With all her vast mineral wealth, second to none, Canada is being taken advantage of in many ways. Our raw materials are used in other countries, and made into commodities, which could be manufactured in Canada and thus give employment to those who call Canada their country. Shame on you, Canada, for forcing your sons into other countries to help manufacture your own raw materials!

The writer also notes with alarm what is happening to our own coal industries. It is out of the question to even think that our coal operators can compete with the Russian coal coming into Canada. The public wants to be taken into consideration on the coal question. They have been paying a high price for their coal and no sane person can cast any reflection on them for using Russian coal if they can get it cheaper than Canadian coal.

It is up to the Canadian miners to solve this problem. They must come down in order to hold their markets, and come down they must to the Russian miners' level. They will get longer employment, and they will not have to work and keep their families on 25 cents per hour on this relief work. The miners need not underestimate the public, who understand that no family can live one year on three months' work. The operators have done their part investing their money in the coal industry, in order that they may have some recompense. The miners must come down to the Russian miners' standard of living if Canadian coal is to compete with Russian coal. No doubt many of these agitators and Communists, who tell of the wonderful country Russia, will not hesitate to tell their friends among the miners to get their basis of living down to the Soviet Russia level. Perhaps some of them will even go so far, in the interests of Sovietism, to spread the gospel of "Russian coal for Canadians" among the rank and file of the Canadian coal miners. Then perhaps the so-called leaders of the miners have some solution of preventing Russian coal taking the place of the coal mined by the workers in their unions.

S. J. ELLIS.

Aerial, April 1, 1929

A few days ago, a teacher at the Blairmore school noticed a boy of her class ravenously eating an apple, and remarked: "Look out for worms, sonny!" to which the little lad promptly replied: "When I eat an apple, the worms have to look out for themselves."

GROWTH OF COMPANY  
REFLECTED IN  
NEW SLOGAN

Toronto, April 10.—Druidford Ellison, Manager of Nestlé's Food Company of Canada Limited, famous manufacturers of condensed and evaporated milk, has returned from a recent extensive trip across Canada in the interests of his Company.

Mr. Ellison commented on the spirit of optimism prevalent throughout the Dominion, and expressed the conviction that conditions were never more favorable for business expansion. Because of rapidly expanding sales and in line with recent intensive developments, Nestlé's have evolved a new slogan which they feel will more fully express the world-wide popularity of their product. In future all Nestlé's advertising will carry the slogan, "Nestlé's—World's largest producers and sellers of condensed and evaporated milk." The slogan is an admirable indication of the growth of the Company which is now a universal institution selling its products in every country on earth.

POWER OF AVERAGE  
CAR UP 54% IN FOUR YEARS

An increase of 54% in the power of the average passenger automobile has been made in the past five years, according to a survey made by the American Research Foundation covering all standard models for which complete specifications were available. Fifty-three models that were in use in 1925 and eighty-three models of 1929 were studied.

One popular car of 1925 developed a maximum of 26 horsepower, while the same make of car today develops fifty horsepower, and this is a fair example of the general trend.

Little tendency toward uniformity is revealed by the survey, and it is doubtful whether the varying wishes of twenty-odd million users will ever permit enough uniformity to lessen the fuel problems involved. The wide variations shown by cars now in use are indicated by the fact that they show compression ratios ranging from less than 2.50 to 6.50, and engine speed ranging from 1,500 to 4,200 revolutions per minute.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor  
Serve the church that the church may serve you.

Services, Sunday, April 27th the Pastor in charge.

11 a.m.—SENIOR SCHOOL, for Young People over 12.

2 p.m.—JUNIOR SCHOOL, for Children under 12.

7:30 p.m.—PUBLIC WORSHIP.

Mrs. Davis, of Hillcrest, will be the special soloist for the evening, other music by the choir.

The Pastor's subject: "The Risen Christ, brings comfort, hope and power to a weary world."

This is the first of a series of services commemorating the gift of the Holy Spirit and the birth of the Church in the upper room in Jerusalem 1900 years ago.

## HILLCREST UNITED CHURCH

Pastor: Rev. J. W. Smith, B.D.  
Services every Sunday—

11 a.m.—Junior School, for boys and girls under 12 years.

2 p.m.—Senior School, for young people over 12 years.

3 p.m.—Public Worship.

## ST. LUKE'S, BLAIRMORE

Services, Sunday, April 24—Children's service at 10.15 a.m. Lenten boxes to be brought to this service. Holy Communion at 11.15 a.m.

The following boys will attend the Boys' Vocational conference at Lethbridge today: Norman Packer from Blairmore, Gilbert and Wilfred Hoyle from Coleman. The incumbent, Rev. A. D. Currie, will also be in attendance.

engine speed ranging from 1,500 to 4,200 revolutions per minute.

## NOT SO BRIGHT

An Alberta speaker in Toronto said that Ontario children seemed brighter than Manitoba children. How could he perjure himself thus, or was he only being polite. At any rate, the West will rise in a body to protect against this assertion. Everyone knows that children and adults also grow steadily brighter from east to west, reaching their zenith a few miles east of the Rocky Mountains. —Ex.

## Figure it Out Yourself

An old lady was making a trip in the aerial railway, and she kept asking an official questions until his patience was exhausted. When about 2,000 ft. she asked:

"Suppose that the cable broke, what would happen?"

"Oh, there is a safety device," was the reply.

"But suppose the safety device broke; what then?"

"Well, that depends on what kind of life you have been leading," said the exasperated official.

# DOUBLE REDUCTION SALE OF USED CARS

## 1928 Essex Coach,

Only \$190 Down

during our Double Reduction Sale balance easy terms. You cannot go wrong on this one. Five good tires, bumpers front and rear, gleaming Duco finish and in excellent mechanical condition.

## 1928 Essex Sedan,

just traded in. Finish, upholstery and tires in good condition, motor thoroughly overhauled. A snap at our Double Reduction Sale.

\$225 Cash, bal. 12 months.

## 1929 Chevrolet Sedan,

must be seen to be appreciated. This car is better than any new car on the market at any way near the cost.

Double Reduction Sale Price \$725

## 1928 Chevrolet Sedan,

These cars are the best four cylinder cars ever built. You cannot get a better buy.

\$210 handles this, balance easy terms.

## WITH AN OK THAT COUNTS

HERE is a once-in-a-lifetime opportunity to secure famous used cars "with an OK that counts" at savings that will be long remembered.

Due to the tremendous popularity of the new Chevrolet Six, we have an unusually large stock of fine used cars. To clear this stock at once, we offer, not only the usual reduction featured yearly at this time, but DOUBLE REDUCTIONS, meaning prices that are nothing less than sensational. Benefit by these amazing values. Come NOW—today!

**THE MOST SPECTACULAR VALUES  
WE HAVE EVER OFFERED!**

## 1926 Star Coach,

only at our Double Reduction Sale could you buy a car in the excellent condition this car is in.

at \$375, easy terms.

## 1926 Ford Coupe,

new radiator, motor overhauled, good finish. A dandy car for little money. Terms if desired.

Sale Price \$150

## 1927 Chrysler Coach

one of those fast cars, in good condition. Our Double Reduction price should move this.

\$450, easy terms.

## 1927 Chevrolet Landau Sedan,

finish, motor, etc., in good condition

Goes for \$175, balance 12 months.

## 1928 Chevrolet Ton Truck,

Thoroughly reconditioned with good cab and body, an exceptional buy at

\$495, Easy Terms.

**Crows' Nest Pass Motors - Phone 105 - Blairmore, Alberta**

## Aunt Nellie's Way

It was Aunt Nellie who first suggested feeding "The Terrible Three" with Nestlé's Evaporated Milk. No longer are they nervous and irritable. Regular, romping rascals now!

And here's the Reason! Nestlé's Evaporated Milk is just the best of fresh cow's milk with part of the water removed—then sealed and sterilized in airtight containers. Add water again and you have absolutely pure, safe milk—but more readily digestible than ordinary milk because the large fat globules of the milk have been broken up into small ones of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestlé's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestlé's Evaporated Milk for Your Baby. Use it in coffee—in cocoa—in tea. Use it in all cooking and as a beverage by diluting with one to two parts water.

# NESTLÉ'S

## EVAPORATED MILK

(Unsweetened)

### EASTER EXAM RESULTS FRANK JUNIOR ROOM

Following are the standings of pupils of the Frank Junior room in the Easter examinations:

Grade I. B.—Kathleen Blais 87, Emil Edl 76, Lorraine Pirlot 74, Benny Novotny 66, Josephine Robach 58.

Grade I. A.—Georgette Dau 87, Tony Cerny 79, Martin Osadan 72, Grade II.—Irene Blais 85, Magdelina Cerny 84, Annie Karlner 83, Frances Svoboda 73, Veronica Osadan 50.

Grade III.—Mary Donkin 83, Annie Vyschid 81, Jeanne Sherring 74, Kathleen Osadan 69, David Smith 68, Frank Cerny 65.

Grade IV.—Beth Murray 81, Jim Svoboda 74, Rosy Cerny 68, Henry Novotny 66, Evelyn Smith 62, Frank Svoboda 60, Emil Dypelt 56.

Grade V.—Bobous Bachura 82, Reta Resac 81, Bella Krol 79, James Jbelin 47.

### A GOLFER'S WHIMSY

There was an incident without parallel in the history of golf courses on Saturday, on the Waffrons links, near Sarnitton, when the ashes of the oldest member of the club, Mr. T. H. Haliburton, were, according to a request in his will, scattered beneath a beech tree which used always to get in his way while he was playing the eighteenth hole. The funeral procession of his friends and clubmates was in golf costume, play went on as usual at the other holes—also by request of the deceased—and when a black-robed official from the crematorium disposed of the ashes below the tree, one of the mourners formally uttered the brief valediction, "Under this beech tree we sprinkle his ashes, to the Eternal Spirit we commend his soul."

Kotas 76, Yarnil Ruszka 73, Vind Cerny 70, William Sherring 69, Mary Reta Resac 81, Bella Krol 79, James Jbelin 47.

### GOVERNMENT TO ASSIST ANGLING ORGANIZATIONS

Ottawa, April 23.—With a view to giving further assistance to fish and game associations and other bodies in helping to maintain and improve the angling resources of the country, the Fish Culture Division of the Dominion Fisheries Branch has made preparations whereby organizations taking up fish cultural activities in the provinces in which the fisheries are administered by the Federal Government, may obtain expert advice and supervision without charge, as well as free allotments of eggs and fry.

Fish reared by any association under this co-operative plan are to be distributed in public waters only.

Assistance has already been given in several instances and experience has indicated that co-operative fish culture can be successfully extended, with advantage not only to those immediately concerned but to the country generally. This view is also supported by the experience of the United States where the number of co-operative fish culture plants increased from 25 in 1926 to 107 in 1929, and the annual allotments of fry made to the plants by the United States Bureau of Fisheries has now reached approximately 5,000,000.

The expectation of the Fisheries Branch is that in most cases in which its assistance is sought, the associations taking up fish culture will confine themselves in the beginning to operating "rearing ponds" in which fry will be brought to the fingerling or older stages before distribution in public angling streams or lakes. In different parts of the country there are many areas, in which the water level and flow can be easily controlled, which are well adapted for use or development as rearing ponds, and could be put in shape for use at comparatively little expense. Ponds might also be excavated or wooden tanks set up for the same purpose. While at the outset the associations would probably confine themselves to operating rearing ponds, in some instances—as has already happened at Cranbrook, B.C., for example—they might eventually build small hatcheries.

While fish culture, on such a scale as would be followed by the average association or club, is not especially difficult to carry on, when the advice of experts is available, it is necessary that sites chosen for the operation should be carefully selected and that the ponds or plants established should be properly prepared. In view of the importance of these points, the assistance granted by the Fish Culture Division will be conditional on its approval of the site which any association proposes to use and its approval of the particular objects in view; for an organization to begin the development of a site before it has been inspected and approved by an experienced fish culturist and engineer is only to invite failure. In all cases in which assistance is sought under this co-operative plan, the Fish Culture Division will make the necessary expert examination of suggested sites, without cost to the associations concerned. During the development of approved sites it will also furnish expert advice and supervision so that the steps taken may be along the lines which the experience of trained fish culturists has shown to be best.

When a plant is ready for operation, the Division will supply eggs or fry of the variety best suited to the particular case. The size of allotments, of course, will vary according to the total supply of eggs and fry which the Division has available at its hatcheries provided at the several plants. Until associations joining in the co-operative plan have gained sufficient experience to enable them to assume full responsibility in operating their plants, the Division will give expert operating advice and will exercise a general supervision over the work of each plant—the care, feeding, distribution of output, etc.

On its part, any association receiving assistance must construct and maintain its plant, make the necessary provision for hatching the eggs

or rearing the fry which the Division has supplied, and must provide the food, care, etc., which the fish will require during the time that they are retained in the plant.

When the time comes for distributing the fingerlings or older fish, the association must place them in suitable public waters of its district. By distributions of this kind the public angling waters will be improved, with consequent general benefit from the sporting point of view.

Fish culture has become increasingly important in Canada as the number of fishermen has grown greater and the motor car and the gasoline engine have made fishing waters more readily accessible for the angler and the commercial fisherman. From the economic standpoint it is essential that there should be continued attention to the maintenance of the fishing resources, and from the anglers' point of view it is desirable that there should be intelligent action toward conserving and building up the stock of fish in sporting waters.

The co-operative fish culture plan opens the way for anglers' associations, service clubs, etc., to participate effectively in maintaining well stocked lakes and streams and thus to increase the sportsman's opportunities of enjoying good fishing. With nature supplying the sites and the Fish Culture Division supplying the fry and the requisite expert assistance, associations will be enabled to carry on fish culture without much expense.

We congratulate Mr. and Mrs. Stinton Marshall, of Hillcrest, upon the success of their young son James, in winning the junior open violin contest at the festival on Monday.

Quite a number attended the Fridgidaire-Hydrator demonstration at the showroom of the Crows' Nest Pass Motors and the Greenhill Grill last week end and were keenly interested. During the afternoon of Saturday, the apparatus was moved to the Moose hall, where the United Church tea and Easter sale was in progress, and here demonstrated how quickly and well various delicacies can be prepared. Ice cream for the evening was provided.

### As Friend to Friend

"Cohen, I've just been to the bank to borrow some money, and they say all I need is that you should sign your name to this note: then I can have all the money I need. Ain't that fine?"

"Abie," replied Cohen, reproachfully, "you and I for many years have been friends, and yet you go to the bank when you need money. Abie, you just go again to the bank and say that they should sign the note, and then Cohen will lend you the money."

"Well yer worship, it was like this," said the man charged with disturbing the peace. "Me and the wife gets into an argument over the washin' money. She calls me a lazy loafer, and hits me over the head with a kettle. Then I knocks her down and she comes up again and knocks me down and kicks me in the neck."

"I see," said the magistrate, "and what next?"

"Well, er course, then we gets mad and starts to fight."

Pincher Creek council voted \$25 towards the work of the Salvation Army.

The work of gravelling the Pincher Creek-Waterloo highway will be completed in about two or three weeks.

Mrs. F. Thael and daughters Muriel and Doris, of Lethbridge, were Easter holiday guests of Mr. and Mrs. S. Knapman here.

A Tea and Pantry sale will be held at Mrs. Tom Campbell's residence, in the Greenhill apartments, on Thursday, May 1st, from 3 to 6 p.m. There will also be drawings for a cut-work linen luncheon set complete for eight people, and an led two-story dark fruit cake. Proceeds in aid of St. Luke's church.

The harbor-master at Tacoma reports that in 1929 more than 42 per cent of the ores and concentrates received at the Tacoma smelter came from British Columbia mines. During the year 218,837 tons of ores and concentrates, having value of \$14,094,572, were received from British Columbia. It would seem from this showing that a custom smelter at the coast would be a paying proposition, and justifies the prediction that sooner or later the Consolidated company may construct one.—Kinberley Press.

In spite of the fact that a large number of people had journeyed to Coleman on Sunday night to hear the Welsh Imperial Singers, the United church here was crowded to capacity for the Easter Day service. Special features of the service were a solo by Mr. Arthur Hadwell, an anthem by the choir and a beautiful pageant by nine little girls, with little Miss Vera Lord as leader. The children had been trained for the pageant by their Sunday School teacher, Miss Flora Warner.

## Local and General Items

Kimberley hopes to have a covered rink for next season.

One and a half cords of wood will produce one ton of newspaper.

Misses Louise and Lillian Knapman were Easter visitors to Lethbridge.

TO RENT—A Bedroom and Sitting Room—Apply to The Enterprise office.

Mr. C. A. Sterling, of the Canadian Oils Limited, was a visitor here on Tuesday.

D. A. Perry, of Strathmore, announces that he has a large surplus of gopher holes on hand and will have some rent bargain to offer.

"Magine A. B. McMurdo, the Scotch-to-the-core vocalist, of Pincher Creek, being sized up by a musical festival adjudicator as a Cockney. The kiddies' remark: "S'methin' wrong with the judge!"

The time is coming when wood is hard as clay may be produced, by special treatment, from the quick-growing, soft textured woods, say specialists who are investigating this particular question.

Rev. J. C. Robertson, secretary of the Board of Religious Education of the United Church of Canada, died at his home in Toronto on Sunday, following a brief illness. He was a former resident of St. John, N.B.

Mr. and Mrs. D. G. Mackenzie came down from Calgary on Sunday to be present for the musical festival.

Dr. Robert Bridges, poet laureate of Great Britain, died on Monday at the ripe age of 86 years.

Quite a large sized addition is being built to the Bellevue Bakery, necessitated by Mr. Meade's increasing trade.

Upwards of 150 lives were lost when a church at Cotesli, Roumania, was gutted by fire during a vigil service on Good Friday night.

Sentences totalling one hundred and seventy-five years were imposed on 29 persons charged with attempting to restore the capitalist regime in the Soviet Ukraine.

Col. and Mrs. Lindberg have beaten the world's flight record by flying across the United States from the Atlantic to the Pacific in less than fourteen and a half hours.

Lord Byng, former governor-general of Canada and head of the Canadian forces during the Great War, has announced his resignation as commissioner of the police at London and Scotland Yard.

Mr. Robert Barrhill has returned from Chicago, where he took a course in advertising and window display, and after a few days with his parents here, went to Lethbridge, where he resumes his duties with the Hudson's Bay Co.

## Here and There

"England is intensely interested in reciprocal trade possibilities with the Dominion. Although a satisfactory trade between England and Canada has been carried on in the past, an even greater interest is being shown by well-established firms in Great Britain in Empire trade," said R. R. Galbraith, British ambassador at Saint John recently on landing from S.S. Duchess of Richmond. Mr. Galbraith is touring Canada in the interests of his firm.

"There is no feeling of resentment against the Canadian Wheat Pool in Great Britain," stated R. Hon. Lord Eustice Percy, seventh son of the seventh Duke of Northumberland, on landing from S.S. Duchess of Athol at Saint John recently. "The consensus of opinion in the British Isles is decidedly in favour of a serious economic problem which both British and Canadian farmers are called upon to face," he added.

Covering nearly 50 miles, leading into rich agricultural territory in Saskatchewan and Alberta, the Canadian Pacific Railway has just let contracts for grade construction of four branch lines. It is announced by D. C. Coleman, vice-president in charge of western lines. These contracts cover less than half the railway's present grading programme.

Receipt of the first entry in the world's grain exhibition and conference to be held in Regina in 1932 has been credited to William Hudson of Kathryn, Alberta, with an exhibit in the "Reward wheat class." Mr. Hudson, who has been exhibiting successfully in provincial fairs in the past three years, came to Canada from the Old Country in 1912.

Announcement is made by the Canadian Pacific Railway Company that on and after Wednesday, April 2, they will accept thousands of freight at eastern points destined to points in the northwest, via Port McNoll, Ont., and their lake and rail route, subject to delay at Port McNoll pending the first sailing. There will be five sailings in the company's lake service between Port McNoll and the head of the lake during the coming season.

While the Five Power Conference is in session in London considering ways and means of promoting world peace, active preparations are under way in Canada for launching another war with relative fury. Millions of casualties will result from this war which is timed to start in May. It is the war on insect pests in the Dominion which work insecticides came to Canada from the United States checked by Government entomologists.

Over \$22,000,000 has been invested in manufacturing enterprises in the Province of Alberta and 1978 as compared with 1116 for the corresponding period of 1923. Alberta and British Columbia are of advances while Manitoba and Saskatchewan show a decrease.

Over \$22,000,000 has been invested in manufacturing enterprises in the Province of Alberta and 1978 as compared with 1116 for the corresponding period of 1923. Alberta and British Columbia are of advances while Manitoba and Saskatchewan show a decrease.

The authorities are receiving complaints galore about Bud Minton. Is there no way to improve the game?

Pioneer Stock—"Have you lived in this town many years?" "Yep—I been here longer'n the steel pens down to the post office."

The annual financial statement of Hillcrest Collieries, Limited, for the year ended December 31st last, showed net profits of \$99,106, as compared with \$102,529 in 1928 and \$63,710 in 1927.

Although most newspaper men are in the direst poverty, the late editor of the Nova Scotia Acadia Recorder left an estate valued at \$200,000. It is said that \$129,000 was left him by his father, who died a great number of years ago.

### Natural History

Teacher—"Rastus, what animal is most noted for its fur?"

Rastus—"De skunk; de more fur you gits away from him de better it is for you."—Goblin.

### Presence of Mind

Two Jews were travelling through the West in an automobile, when, without warning, they were held up by a highwayman who appeared about fifty yards in front of them.

One of the Jews sensed the situation instantly. Turning to his friend as he pulled a roll of bills out of his pocket, he said: "Here, Ikey, is dot fifty dollars I owe you!"

## THE TELEPHONE GIRL

The telephone girl sits still in her chair, And listens to voices from every where. She knows who is happy and who has the blues; She knows all our sorrows, she knows all our joys, She knows all the girls who are chasing the boys; She knows all our troubles, she knows all our strife. She knows every man who staggers home to his wife; She knows every time we are out with the boys, She knows the excuses that each fellow employs. If the telephone girl told half that she knows, It would turn all her friends into bitterest foes; She would sow a small wind that would soon be a gale. Engulf us in trouble and land us in jail. She would start forth a story which, gaining in force, Would cause half our wives to suffer divorce. She would get all our churches mixed up in a fight, And turn our bright days into sorrowing night; In fact, she could keep the whole town in a stew, If she told but one-tenth of the things that she knew. Say, Kid, but doesn't it make your head whirl, When you think what you owe the telephone girl?

A carload of waste paper, billed from Port York, Ontario, aroused the suspicion of the United States customs officials across the Niagara river. Working on the theory that waste paper is not shipped such distances, the officials opened the car and discovered more than 1000 cases of rare wines and cordials hidden under a layer of waste paper. The liquor was dumped in the river from the lower bridge to the great delight of boat owners. Many bottles were salvaged—of course!

### Twasn't Us!

An exchange remarks that the man who wrote "Home, Sweet Home," lived for forty years in hotels, so he ought to know.

Miss M. A. Hyson, of the Clarendon teaching staff, spent the Easter vacation with friends in Blairmore.

Here is glorious news. You may have heard it, but it is new to me. It is nothing less than that Charlie Chaplin refuses to talk. He will continue to spend huge sums annually producing silent movies, and he will himself appear in and direct at least one annually. It is as difficult to imagine Charlie Chaplin talking during one of his perfect pantomimes of fun and serio-comic tragedies as it would be to imagine the Parthenon becoming vocal or the jangling of Beethoven's nine symphonies. Out of all this horror of noise and babel of tongues there will be one perfect artist in his class silent as of old; the subtleties of his carefully correlated motion and gestures will not be limited by words; to each man as they imagine upon his perception they will continue to convey exactly each man's own reaction to what has happened. And if the authorities at Hollywood or anywhere else imagine that all men react alike to such things, they are all wet. Should there appear words at a moment when Charlie walks off into the mist at the end of a semi-tragic film, all would be lost.—Vancouver Province.

Word has been received in the city from Miss Mae Flinn, an exchange teacher from Lethbridge who is teaching at Belfast, Ireland. She has an apartment with a teacher from Australia and they have recently visited Holland, Belgium, Germany, Switzerland and France. She says the flowers in England are particularly beautiful just now, with daffodils, snowdrops, crocuses, tulips, anemones, violets, primroses and wall flowers all in bloom. The Irish scenery is spoken of in glowing terms, but Miss Flinn says poverty in Ireland is appalling and she considers a new country like Canada a much better place in which to live.—Lethbridge Herald.

K. G. Craig, who has taken up law practice at Nanton, spent Easter with his family here, returning Tuesday.

The Blairmore Enterprise says: "Kimberley hopes to adopt the Trail hockey team, the 'Smoke Eaters' to play for next season. This is good news for Blairmore, also, for there is no doubt but that many an encounter of an exhibition character could be arranged between these two western championship teams." The Blairmore club's anticipated trip to Europe in 1931 has been sanctioned, and this assures a mad scramble for the Alberta senior championship next year—minus the Boatswain—Drumheller Mail.

## Reasonable Doubt

The jury acquitted the defendant of horse-stealing because of the powerful plea of his lawyer.

"Honor bright, now, Bill," said the lawyer, as the two left the court house, "you did steal that horse, didn't you?"

"Well, now look here. I'll be honest with you. I always did think I stole that horse until I heard you make the speech to the jury. Now I'll be doggoned if I ain't got my doubts about it."

A stranger addressed the farmer's boy across the fence.

"Young man, your corn looks kind of yellow."

"Yes, that's the kind we planted."

"Don't look as if you would get more than half a crop."

"Don't expect to. The landlord gets the other half."

Then, after a pause, the man said:

"Boy, there isn't much difference between you and a fool."

"No," replied the boy, "only the fence."

## Why Jobbers Get Gray

(Following is an actual letter a jobber received recently regarding shortage in a shipment):

Genelman:

I got the pump I buy from you, but why for god sake you doan send me no handle, I loose to my good customer sure thing you doan treat rite. I wate ten days and any customer he holler for water like hell for the pump.

You no shoe is hot somer now and the win he no blow the pump, she got no handle so what the hell I goan to do with it.

Doan send the handle pretty quick I send her back and I goan order some pump from Myer companie.

Goodbye. Yours truly,

Antonio Dubra.

"Since I rite I fine the goldman handle in the box. Excuse me."

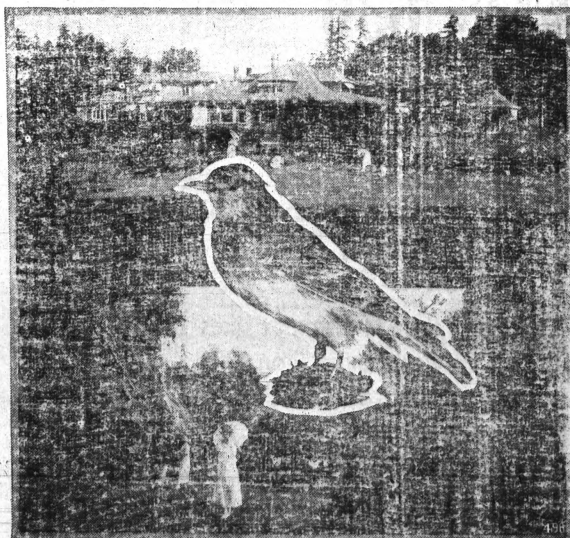

A communication received by us a few days ago suggests that as the government of Canada was largely responsible for bringing into this country individuals who want to infuse Soviet ideas, we might well get together and collect funds to send the same individuals back to Russia, with the request that if conditions over there are so much better than they are in Canada, they stay there and enjoy them. Why should a modern country like Canada tolerate the broadcast of such trash as is being handed out by these intruders?

## Links with a Great Past

THE Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, is here shown embracing the small daughter of the Hon. Mrs. Arthur Howard in Hyde Park, London, England. Both children are living links with the great past when one of the major events in the history of Canada was in the making.

## The Only Larks in America

Fifteen minutes car drive from the Empress Hotel, Victoria, is the only colony of skylarks on the continent of North America. The sweetest of a songsters, of whom Canadian children read in all anthologies of British poetry, but which they have never seen or heard in actual life in their own country, save in this one section of the Dominion, has been acclimatized at Victoria successfully. They are to be found in considerable numbers among the oaks to the north of the city, on the slopes of Mt. Talmie, at the Colwood Golf course, among the orchards of Gordon Head, in the deep meadows near Elk Lake, and from the flower-strewn grounds of Butchart's Gardens. Photographs show the gardens with nests of the English skylark.

Dated this 16th day of April, A. D. 1930.

**GUTHRIE & LYNCH-STAUNTON**  
Blairmore, Alberta.  
Solicitors for Administrator.

## **COWLEY HAPPENINGS**

An unusually pretty wedding took place on Easter Monday at 2 o'clock in the Anglican church, North Fork, when Miss Alice Helen Fairclough became the wife of Mr. John Green. The bride, who was given away by Mr. Malcolm McMillan, was charmingly pretty in a dress of crepe white satin, trimmed with snow white roses, a daintily embroidered tulle veil held in place with a wreath of orange blossoms completing the wedding attire. The church was packed to standing when the wedding march was played by Mrs. Cecil Elton. The bride carried herself in stately grace as she was led to the altar by Mr. McMillan, carrying as she did the conventional bridal bouquet of Easter lilies and pink carnations, whose rich coloring matched most vividly the blushes on her cheeks as she took her place beside the groom, when Rev. Mr. Jeffcott, B.A., of Pincher Creek, performed the ceremony. Miss Fairclough was born and reared to womanhood in Victoria, B.C., while Mr. Green, who was a sailor by profession, also a veteran of the late war, was born in London, England, migrating to Canada after the treaty of peace, taking up residence on the North Fork, where he met his bride, who was engaged as teacher of the Gads' Hill school. After the ceremony, the house guests went to the home of Mr. and Mrs. McMillan, where an appetizing repast was served. Mrs. Peel and Mrs. Jack Graham, who were matrons of honor, poured tea, while Miss Kathleen Elton, Miss Ellen Scott and Miss Jean McLean helped with the serving. The young couple, who are highly esteemed, were the recipients of many beautiful gifts. The McMillan home was a scene of activity when cameras were busy taking snaps of the newly wedded pair. So blending was the confetti as it was thrown in profusion that it could easily have been mistaken for a shower of red snow as the bride and groom fairly ran the gauntlet to escape its downpour. When Mr. Green got control of the steering wheel, they escaped at a rapid pace, dragging a bunch of tin cans and other junk behind the bridal car, as they started on their way for a week's honeymoon trip to Calgary and Banff. Among the guests were Mr. and Mrs. Cecil Elton, Miss Kathleen Elton, Mr. Michael Elton, Mr. and Mrs. Lawrence Peel, Mr. William Hendrich, Mrs. Loni Peel (Corbin, B.C.), Mr. Harold Gerry, Mr. and Mrs. McIntosh, Mr. and Mrs. John McLean, Miss Jean McLean, Mr. and Mrs. V. Sandeman, Mr. and Mrs. Charles Smith, Mr. and Mrs. Jack Graham, Mr. Dick Graham, Mr. and Mrs. T. Heap, Mr. Tom Heap, Mr. and Mrs. George Mowat, Mr. Harry Gunn, Mr. and Mrs. Cox, Mr. and Mrs. Heaton, Mr. George Heaton, Mr. and Mrs. J. Bare, Mr. and Mrs. Channars, Mrs. West (MacLeod), Mr. and Mrs. Poulson, Mr. Hood Poulson, Mr. and Mrs. Frank Staunton, Mr. and Mrs. M. A. Murphy, Mr. Alvin Murphy, Misses Edith and Sylvia Murphy, Miss Helen Scott, Mr. and Mrs. C. J. Bundy, Mr. Chester Scott, Mr. and Mrs. D. Smith, Mr. and Mrs. Bert Connelly, Miss Kathleen Tompkins (Blairmore), Mr. and Mrs. W. Ritson (Lethbridge), Mr. and Mrs. P. Butler, Mrs. Jeffcott (Pincher Creek), Mr. Jack Kemmis (Calgary), Mrs. Robert Hewitt, Mr. S. Thompson, Mrs. George Porter, Mr. Robert Williams, Mr. and Mrs. Pech and others.

Mr. and Mrs. Wells and two children, Irene and Albert, of Bellevue, have returned from spending Easter holidays the guests of Mr. and Mrs. Robert Littleton.

Mr. and Mrs. Turner, of Calgary, have returned, after spending Easter holidays with Mr. and Mrs. Brockwell, Mrs. Turner's parents.

Arrangements are being made to hold a celebration here on the 24th of May. The sports will include horse races and other interesting numbers.

A social evening was staged by the local Masons on Thursday night, when a very pleasant time was spent.

## **IT'S BENEFITS ARE UNIVERSAL**

Many people have not learned to look upon advertising in the light of the realistic rhymester of an odd time who penned this famous verse on advertising:

Go forth in haste; with bills and paste

Proclaim, to all creation,  
That men are wise who advertise  
In every generation.

In large part the public regards advertising as being a possible advantage to the advertiser for which the consumer pays, and yet the facts prove otherwise. Time and again has it been shown that well judged, properly conducted and persistent advertising inures to the benefit not only of the person who attracts attention to his wares in this manner, but also of the community.

After interviewing large numbers of distributors as to the economic effects of advertising, a committee of the national distribution conference reports:

"Broadly speaking, it would seem that where the advertising creates an increased demand for products of a certain class, a wide distribution of such products—in other words, makes new business, bringing about lessened distribution costs and lessened production costs owing to increased demand—there can be no doubt as to the value of such advertising, not merely to the concerns that pay for it, but also to the public that consumes the goods."

"Bills and paste" have given way to newspapers and magazines and those "who advertise" are not only wise but altruistic and philanthropic, for by helping themselves they are helping others.

## **FAVOR LEGISLATION TO END LIFE OF INCURABLES**

The National Congress of Doctors meeting at Prague voted in favor of legislation for euthanasia, the much mooted business of putting patients suffering from incurable ailments out of misery.

The Czech doctors decided there are many cases in which euthanasia would not only be humane but actually defensible on moral grounds, and it is the first time anywhere, it is believed, where legislation was asked to make it possible. It was recommended that a national board of three leading physicians be established to pass on the cases and decide which ones should be given a fatal overdose of some drug or merely refrain from trying to prolong life. All agreed that the gravest abuses would arise if left to individual judgments and most of the doctors said they would prefer to have the responsibility shifted to the national board.

## **A Trade Secret**

"Bridget, didn't I hear you quarrelling with the milkman this morning?"

"Ye did not, ma'am. I enquired for the health of a milkmaid at the dairy."

"Yes, and—"

"Says I, 'How's the milkmaid?' an' he got in a temper o' fury an' said: 'That's a trade secret.'"—Ex.

Twenty handfuls of what were played the early part of the evening, when prizes were won in the following order: ladies' first, Mrs. M. A. Murphy; gents' first, Mr. Robert Littleton. The consolations were awarded to Miss Doris McEwen and Mr. Jack Green. The outstanding feature of the evening was the "Dinty Moore" supper, which was served by the ladies, when corned beef and cabbage was never so popular before in Cowley as on this occasion. Two long tables were spread the length of the hall and decorated with spotless linen and large bouquets of crocuses. When the guests were seated, this piping hot supper was hurriedly served to many hungry appetites that enjoyed to their full satisfaction a very delicious meal. Merry making continued with a couple of hours dancing.

## Catering To Tourists

Approximately twenty millions of dollars will be expended by the Governments of the three Canadian prairie provinces in the construction and maintenance of good roads this year, not to mention several more millions which municipalities will devote to other roads not included in the system of through Provincial highways and main market roads. It is a lot of money. It represents the largest single item of expenditure for any one service. It means an outlay of at least ten dollars for every man, woman and child in Western Canada.

A very considerable portion of this vast sum is being expended on the assumption that quite apart from the benefits that will directly accrue to our own people by reason of these good roads, they will be the means of attracting an ever increasing volume of tourist traffic from other Provinces and the States to the south, and that these visitors will bring much business and profit to our people through the purchases and expenditures they will make in this country. In a word, the avowed object of a goodly portion of this expenditure is to encourage visitors to tour the West.

Good roads, admittedly, are essential if we are to develop a large tourist business. But, in themselves, they are not enough. These prospective tourists can find good roads, possibly better ones than we can offer, much nearer home, if a fine highway over which they can speed in comfort and safety is all they are looking for. They will come to Western Canada to enjoy a new, a virgin land. They come expecting something different. What is Western Canada going to provide?

Are we going to allow our highways to be disfigured—as they have been south of the international boundary line,—by unsightly billboards and advertising devices of various kinds, defacing the landscape, obscuring the scenic beauties our country has to offer, oftentimes confused by drivers with the legitimate road directions, signs, and an eyesore to all? Governments and municipalities can, to a large extent, control the placing of such signs on the highway right-of-way, but individual property owners must co-operate by refusing permission for the erection of billboards and the plastering of signs on private property and buildings.

Our cities, towns, and villages should seek to make their respective communities attractive to the visitor, and special attention should be devoted to the approaches to the main roads leading into and out of each settlement. The smaller the place, the more important it is that the surroundings be right, because they are noted to a greater extent by visitors than is the case in larger centres.

Community spirit and enterprise should find expression in having all places in which visitors are interested, and must visit, as, for example, hotels, cafes, garages, post offices, as clean, neat and efficient as possible. Gasoline and oil companies are setting a good example in making filling stations attractive in appearance, especially in larger centres, with rest rooms, wash rooms, comfort stations, etc. They are out to give service. Other businesses may well emulate them. Even the smallest place on a through highway can support such services.

The main highways through towns and villages should be clearly marked, and the location of such utilities as the post office, the telephone exchange, telegraph office, auto camp, prominently indicated.

Above all, courtesy should be the watchword of every citizen. It should be remembered that they are strangers who are entertaining in your midst. What to you is commonplace, is to them strange and new. They desire information; then go out of your way to supply it. Make them realize how welcome they are so that, when they depart, if they carry away no other impression, they will at least, remember your town as one where the people were cordial, kind and helpful.

The millions of dollars that are being expended on highways is your money. Its expenditure is designed to benefit you and your community directly and indirectly. Make the most of it. This you can only do by individual and community co-operation.

## A Modern Fog Alarm

**Partridge Island Signal Derives Power From Diesel Engines**

The Partridge Island light and fog signal station at the entrance to St. John N.B. harbor, which is to be the first steam-operated fog alarm in the world, will in the near future derive its power from modern semi-diesel engines. In adopting this modern power the station may again lay claim to priority, for it will be the first of the kind in Canada. Other stations depending on oil engines have only internal combustion motors utilizing gasoline as a starting mixture and operating on kerosene as a regular fuel. The light on Partridge Island was established in 1791, and the fog signal in 1859.

## Shipments From Peace River

During the calendar year 1922, the Peace River territory shipped to Edmonton 5,550 cattle, 25,150 hogs, 1,445 sheep and 780 horses, besides sundry other products, including sacked seed. Nearly 11,000 home-stands were filed in the last two years and over 100,000 acres were broken during 1922.

She: "Did you and your boss come to an agreement on your salary?" He: "Oh, yes; we decided to leave it as it is."

## Changing Seasons

Brings colds and other sickness. Keep Minard's in the medicine chest. It's a great preventative.

W. N. U. 1834

## Skill Of Mail Pilots

**No Wonder They Are Considered Aristocrats Of Air**

The skill and hardihood of the pilots who fly the air mail are almost beyond belief, sometimes. Not long ago Pilot Robert P. Hopkins, flying a National Air transport plane from Chicago to Cleveland with a heavy cargo, met a heavy fog bank when he arrived over Cleveland. The fog was so dense that he could not find the airport, and he circled helplessly for an hour and a half.

At last he made out a bit of the lake front. Cierling low, he spied a city park with a little open space in the center. Down he came—to make a safe landing on a patch of lawn so small that in the morning it was necessary to take the wings of the plane off to get it out through the trees.

Skill like that hardly needs any comment. No wonder the air mail pilots are considered the aristocrats of the air!

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

## A Remarkable Record

To cross the Atlantic twice every year on the White Star liner "Baltic" ever since the steamer began service more than 25 years ago, is the record of Mrs. M. C. Wilcox, 88-year-old resident of Larchmont, N.Y., who has arrived at Halifax on her 50th crossing. Her first ocean trip was made on the maiden eastbound voyage of the "Baltic."

The name April is derived from a Latin word meaning "to open."

## Strikes In Canada Decrease

**With One Exception Last Year Most Peaceful Since 1902**

With one exception, 1922 was the most peaceful year in Canadian labor since 1902, the number of workers affected by strikes and lockouts falling to 12,924, and the days lost to 153,038. Steady progress toward happier relations between employer and employee has been registered now since 1922, the number of workers affected being as follows: 1922, 41,000; 1923, 32,868; 1924, 32,494; 1925, 25,798; 1926, 24,142; 1927, 23,083; 1928, 18,238; 1929, 12,924.

The figure for last year was only nine per cent. of the 1919 total, the year of the Winnipeg strike. Toronto figured in three of the minor strikes of the year. The painters' strike involved 600 workers, and lasted 35 days, the time loss being 7,800 working days. The plumbers' strike involved 400 workers, lasted 19 days, the time loss being 7,500 days. The plasterers' strike involved 500 workers for 12 days, causing 5,000 days' time loss.

## ST. VITUS DANCE SUFFERER MADE WELL

**Nerves Strengthened Through the Use Of Dr. Williams' Pink Pills**

Time after time cases are brought to the notice of the public where sufferers from nervous troubles have been relieved by Dr. Williams' Pink Pills—where victims of St. Vitus Dance have been made well through the use of these pills after other medicines have failed to be of benefit. The reason for this is that Dr. Williams' Pink Pills act directly upon the blood—they make new, rich red blood and in this way they strengthen the nerves and make St. Vitus Dance impossible.

Mrs. P. Donnelly, Montreal, Que., is one more grateful mother who wishes to add her testimony to those already published. She says:—"My little girl, aged eleven, was a great sufferer from St. Vitus Dance. Several doctors prescribed for her without benefit. She was in the hospital for two weeks—still no benefit. I then saw an advertisement recommending Dr. Williams' Pink Pills for St. Vitus Dance, so decided to try them. My little girl had only taken a couple of boxes when I noticed some improvement so I continued with the treatment till she was completely free from the trouble and can enjoy herself as other children do. I can highly recommend Dr. Williams' Pink Pills to anyone suffering from St. Vitus Dance or any other ailment that affects the blood. These Pills have done for my daughter. I am sure they will do for others."

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Needs Assistance Of Engineers

**To Secure the Best Social and Economical Development In Canada**

"We went westward and now we are going northward," said Brigadier-General Charles Hamilton Mitchell, describing the development of Canada to the American Society of Mechanical Engineers, at Washington. General Mitchell made plain the results of improvement in transportation, in development of hydro-electric energy, among the people of the Dominion.

The general informed the assembled international engineers of the importance to Canada of the development of transportation by land, water and air, of the tremendous results of the mechanization of the agricultural industry, of the "miracle of paper," and the extraordinary mining development.

"Looking to the future," he concluded, "a young country such as Canada with its huge natural resources, will still more demand the fullest assistance and contribution from its engineers to secure the best economical and social development. When that best is obtained then the best political and cultural results will be assured."

He had spoken to her on the pier and she was very annoyed. "I don't know you from Adam!" she exclaimed, indignantly. "You ought to," he retorted. "I'm dressed differently."

In spite of all jokes, figures prove that Englishmen are more saving than Scots.

The early bird gets the worm, but, unhappily, the too early bird gets the frost.

## Dry, Burning Throat Made Life Miserable

**Have You These Symptoms?**

"Three years I was seriously bothered by a bronchial cough. At night I would awaken with a dry, irritating feeling in my throat. I couldn't cough up anything, but very soon my throat got into quite an inflamed condition. Once I got CATARRHOZE INHALER I was all right. I took it to bed and if an attack awakened me the Inhaler gave me relief. Catarrhoze has restored me and I strongly urge every one with a weak throat to use it regularly."—(Signed) J. Catarrhoze will not disappoint you. Get the complete \$1.00 outfit; it's guaranteed small size, 50c. At dealers everywhere.

## Catarrhoze A Ten-Minute Relief!

## Loss Is Unnecessary

**All Baby Chicks Can Be Banded If Properly Looked After**

"There is no sense in the idea so many people have, that you have to figure on losing a big percentage of your baby chicks," says F. Clardy, former president of the American Baby Chick Producers' Association, and for thirty-five years a practical poultry raiser. "Start with good vigorous chicks from a good stock, properly hatched in modern incubators. Give them the right kind of care and feed, protect them from chilly winds and rains and from vermin and rodents, and there is no reason why you should not raise practically every baby chick."

"In all my years of experience, I have found that, aside from the very important factor of starting with a quality of chick in the first place, the most important thing in poultry raising is to give the birds the care they are entitled to. A baby chick is a tiny bit of life, but how it will grow when it gets a good start!"

"I have found that strict attention to keeping the living quarters of poultry absolutely clean is a great help. Fith, spreads disease! Cleanliness opposes it. Of course undue exposure must be guarded against also."

"So long as the Chinese doctor keeps his patients well, the story says, he gets his pay regularly. Whenever they become ill, his pay stops until he makes them well again. Consider yourself your own poultry doctor. So long as your birds are well and thrifty they will pay you, with the treatment till you are well again. A interest to keep them well all the time."

## Smothering Spells

**Couldn't Walk Far Gaspod For Breath**

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and with the treatment till you are well again. A interest to keep them well all the time."

"A friend told me to try

which I did, and in a short time I felt much better.

"I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Synthetic Bee Stings

Perfection of synthetic bee stings has been announced by the medical laboratories of Vienna, Austria. Professors of the Polytechnic hospital made chemical analysis of bee venom and claim to have succeeded in duplicating and improving it. The stinging chemical is said to cure rheumatism.

Persian Balm is a true elixir of youth. Refreshes and rejuvenates. Adds a youthful charm to the complexion. Softens it up to your skin. Makes hands flawlessly white. Indispensable to the woman who appreciates subtle distinction. Delightful to use. Delicately fragrant. Soothes dry and irritated skin. Corrects and preserves. A hawless toilet requisite for every discerning woman. A true aid to beauty.

## A Model Community

In the town of New Larnach, Scotland, established as a model community by Robert Owen, there were no lawyers or magistrates and not a legal punishment during a period of nearly 30 years.

Minard's has Wonderful Antiseptic Power.

## Not Properly Qualified

**Toronto Professor Says Universities Not Equipped To Study International Relations**

Canadian universities are not sufficiently qualified for an adequate study of international law and international relations, Prof. Norman MacKenzie, of the University of Toronto, told the House of Commons committee on industrial and international relations. He knew of no university in Canada, he said, which had a library equipped for the intensive pursuit of these studies.

The committee was considering a resolution sponsored by Miss Agnes MacPhail (Prog. Southwestern Grey), calling for the establishment of chairs and scholarships of international relations in Canadian universities. There was a field in Canada for improvement in this respect.

Prof. MacKenzie thought parliament might well consider aiding either by grants or other means.

If the libraries were available Professor MacKenzie thought, the studies would be developed by the universities and the students themselves. Another suggestion he advanced was that competent professors and students in Canadian universities be given greater opportunities to observe the operations of international business.

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

## Preserving Historic Building

**Alberta May Restore Old Fur House Built In 1785**

Old Fort Edmonton, built 135 years ago inside an 18-foot stockade, may see partial restoration, according to the statement of Premier Brownlee in the Alberta legislature. The last building to be pulled down was the old fur-house, which until 1915, stood on the ground below the legislature. The proposal seems at present concerned only with setting up a log structure two stories high, identical with this fur-house, which goes back to the time when John Rowland was chief factor, between 1823 and 1854. Interest in being shown in the possible erection of a miniature of the whole layout of the early fort.

## Minard's For Filling Hair

Thermometers Tested Yearly Every year, the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for Government departments or for the general public. A certificate is given with each thermometer, which successfully passes the required tests.

## Dogs Have Rights

Because he drove his car over a Boston bulldog, Robert Miller, of Hamilton, Ont., was found guilty of cruelty to animals. He was allowed out on suspended sentence, but must make good the value of the deceased animal, which was \$60. Magistrate Burdick ruled that dogs are entitled to the same consideration on the street as pedestrians.

When you need new energy, when you are hot and mouth is dry—pop up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you can do more—you feel better.

Keep awake with Wrigley's

CK 14

## New Industry For Canada

**Eighteen Varieties Of Soybean Can Be Cultivated In Dominion**

Canadian farmers are finding a new opportunity in the cultivation of the soybean. During 1920 soybean oil and other products to a value of nearly \$2,000,000 were imported by Canadian industries. Experimental work conducted by the Dominion Department of Agriculture shows that eighteen varieties can be successfully cultivated in Canada. It grows under essentially the same conditions as corn, and generally speaking, can be grown anywhere corn grows, and with about the same results.

Fresh Supplies In Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put in most portable shape in bottles and can be carried without fear of breakage.

The Modern Wolf The wolf that used to snarl around the door now occupies an "easy chair" in the parlor, right next to the radio, and within easy reaching distance of the iceless refrigerator, the vacuum cleaner, and other necessities of life.

## Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality anilines make can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and wash.

Diamond Dyes never give things that dry-red look. They are just like at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with make-shifts!

## Diamond Dyes

Highest Quality for 50 Years

## Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Fatks in sheet form.

## Appleford Paper Products

HAMILTON ONT.

Western Representatives:

HUNTER-MARTIN & CO., REGINA, SASK.

## EMIGRATION TO CANADA SHOWS BIG INCREASE

London, Eng.—Emigration to Canada has increased more than 25 per cent. during the past four years, although emigration to dominions generally has shown a considerable falling off since 1926, it was disclosed in the House of Commons.

Hon. W. R. Smith, parliamentary secretary of the Board of Trade, in reply to questions said emigration to Canada had increased year by year, namely from 49,632 in 1926, to 65,568 in 1929, while Board of Trade figures showed the aggregate emigration to Canada, Australia, New Zealand and the United States had decreased from about 119,000 in 1926 to about 94,000 in 1929.

The colonial office also was questioned with regard to Dominion emigration. Dr. Drummond Shiels, parliamentary under-secretary, stating he would circulate detailed figures later. He gave the same figures as Mr. Smith for Dominion emigration generally, stating emigration to Canada showed an annual increase.

## Twelve Rescued From Sea

**Voluntary Missionary and Family Stranded in Motor Boat**  
Panama City.—Stranded for nine days in a motor launch in the Caribbean Sea east of Colon, J. W. Miller, of Jacksonville, Fla., and his wife and nine children and a negro seaman were rescued by the Cuban gunboat "Patria" when their doom from starvation and exposure was imminent.

Miller and his family, the youngest of whom was seven months old, started out from Boca del Toro, Panama, for Colon, in a small motor boat. Six days later they ran out of fuel while only a short distance from their objective.

For days after that he watched for craft which might help him to get to Colon. Twice he signalled passing boats with a small flag he had with him, but was unable to make himself seen. The "Patria" sighted him about three miles off Colon and brought the party of 12 to port. The Millers are a family of "voluntary missionaries." They left Jacksonville in June, 1928, for a cruise through the West Indies, and in the course of their trip they founded the mission "Church of God" on the Isle of Pines, Cuba.

## Keeping Up Record

**World's Champion Egg-Laying Hen Still Leads in Production**

Saskatoon. — Lady Victorine, world's champion egg-laying hen, is doing very well in her second year. When this Barred Rock hen produces at the University of Saskatchewan, completed her first year of egg production, during which she laid 368 eggs, she did not moult immediately but laid another 16 eggs last September.

Towards the end of December she resumed business, laying four eggs in that month. In January, February and March she worked steadily and produced as many eggs as the average Saskatchewan hen does in a year.

## France Protects Auto Industry

Paris.—From ten to 60 per cent. higher tariffs on United States automobiles became effective under a bill passed by the chamber of deputies and the senate. The government contended the law was intended merely to simplify the customs routine by changing from ad valorem to specific duties. Arguments in parliament were based upon the theory that the French auto industry needs more protection.

## Will Reinstate Clause

London, Eng.—The House of Commons has voted, 194 to 50, to reinstate in the Army Estimates bill the clause abolishing the death penalty for cowardice and desertion. This was the answer of the Lower House to the action of the House of Lords in deleting from the bill the clause doing away with the penalty.

## Presentation For Byrd

Wallingford, Conn. — A sword wrought in gold, silver and enamel to commemorate Rear-Admiral Richard E. Byrd's achievements as geographer, explorer and seaman will be produced here for the State of Virginia. It will be presented by the state to Admiral Byrd upon his return from the South Polar regions.

A new electrical device can be used to seal broken blood vessels.

W. N. 11, 1929.

## Predicts Early Election

May Be Held This Year, Says Hon. R. B. Bennett

Calgary.—"All appearances point to the calling of a Dominion election before the end of the present year," asserted Hon. R. B. Bennett, on his return to Calgary following adjournment of the Federal House for the Easter recess.

"I notice that one of the government supporters in Edmonton has fixed the date on which an appeal will be made to the people, but I doubt if the Prime Minister himself has yet determined that point."

"The budget will probably be delivered shortly after the Easter recess," Mr. Bennett continued, "and there is much conjecture as to what it will contain. Undoubtedly promises have been made to the agriculturists of Quebec that a tariff will be imposed on fruits and vegetables, and on iron and steel producers. I have been assured that the industry will receive protection under the new tariff."

"The action of Australia in imposing a surtax to practically prohibit the importation of meat commodities is justified by the Australian Government as the Canadian Government imposed a dumping duty of six cents per pound on importation of butter from Australia after a treaty had been signed between Australian and Canadian Governments agreeing to a duty of one cent per pound on these importations. The whole problem of Australian trade is engaging the attention of the government at the present time."

## Tariff Commissioner Retires

**Fellow-Workers' Of J. A. Russell Hold Banquet In His Honor**

Ottawa, Ont.—Warm appreciation of the faithful and efficient service which he has given to the Dominion over a period of more than half a century was voiced at a banquet given in honor of James A. Russell, retiring commissioner of tariffs for the department of finance.

The event was signalled by the presence of friends and fellow-workers of Mr. Russell, from the department of finance, the department of national revenue, the tariff advisory board, and the department of external affairs, who gathered at the Royal Ottawa Golf Club to do honor to the retiring commissioner.

After serving the country for fifty-three years, during which time he was associated with six finance ministers, Mr. Russell now retires on pension under the seventy-five year age provision.

## Trouble In British Textile Mills Growing

**Workers Fighting Wage Reduction Employers Demand Necessary**

London, Eng.—Day by day the prospects of a long stoppage of work in the woolen and textile industries seem to be growing and it is now feared—unless the government steps in—the country must face a long winter after which a European police sergeant opened fire to save an injured fellow-officer who was being attacked by a crowd opposing his efforts to extinguish a tram-car blaze.

Today the General Trades Union congress appealed to its affiliated trade unions for financial assistance for the Yorkshire workers. The general council has still headed list with a contribution of five hundred pounds, or about \$2,435.

## Plans Return Next Year

**Kaye Don Faced Many Difficulties In Trial For Speed Record**

New York.—Kaye Don's first attempt to smash the world automobile speed mark on the sands of Daytona Beach is over but the dapper little Englishman with the bristly blonde mustache will be back again for another go at it next year.

It has been anything but a pleasant expedition for the debonaire King of Britain's amateur tracks who set forth like a schoolboy on a holiday two months ago to crack Sir Henry Seagrave's mark of 231 miles an hour in the massive Silver Bullet built especially for him by the Sunbeam Motors of England. Twenty-two times Don battled a set of coughing motors and the unusually rough Daytona sands without coming closer to the record than 198 miles an hour.

## Thousand Acres Sown

Lethbridge, Alberta.—O. B. Laster has completed sowing 1,000 acres of wheat in summerfall. Several farmers of the Bow Island district have finished with seeding. The recent rainstorm is the cause of much jubilation by these farmers.

## Canadians Well Informed

**Are Acquainted With Public Affairs Says Lord Willington**

Vancouver.—The difficulties of a governor-general who is being constantly asked to deliver addresses and yet is surrounded by limitations in what he may say, were good-humoredly referred to by His Excellency Lord Willington in addressing a luncheon of service clubs here.

Speaking of the work of service clubs and of the opportunity they offered for the study of public affairs, Lord Willington expressed his opinion "that the citizens of Canada are perhaps better informed on public affairs than citizens of any other country. I wish that in my country we had more of these organizations so that the citizens of my country would know more of empire affairs than they do now."

## To Cut Grain Acreage

**Special Survey Discloses Substantial Reductions In North Dakota**

Washington, D.C.—Governor George F. Schafer, of North Dakota, and John L. Coulter, chief economist of the tariff commission, told Chairman Alexander Legge that substantial reductions in both hard and soft spring wheat acreages may be expected in North Dakota and neighboring areas covered by a special survey made by Coulter.

The eastern section of North Dakota, the chairman said, is expected to reduce its acreage of durum wheat more than the 15 per cent. forecast by the Department of Agriculture. The reduction of hard spring wheat in the western section will be less, but of considerable importance.

## MANY INJURED DURING SERIOUS RIOT IN INDIA

Calcutta, India.—Nineteen persons were injured in heavy fighting between Nationalists and police in the Bhowanipore Sikh quarter of Calcutta. Train cars were burned in both Calcutta and Bombay and armored cars patrolled the streets of the latter city when students and carters joined in the attempt to stop vehicular traffic by obstructing roadways and train-lines.

Six European officers were among the injured at Calcutta. A European woman cycling in the district, was forced to dismount and abandon her machine when she was stoned by the crowd. She received nasty gashes. Ten Khalsas were injured.

There were unconfirmed reports of firing in North Calcutta. Armed police were on duty throughout the affected area and armored cars were active.

Seven British officials were injured by the time the situation was brought under control. Two members of a South Calcutta mob were injured when a European police sergeant opened fire to save an injured fellow-officer who was being attacked by a crowd opposing his efforts to extinguish a tram-car blaze.

Miss Da'sie Dench, London girl, who attempted against police advice to ride a motorcycle through a riot section, was taken to a hospital with deep gashes from stones which the hostile mob flung at her. Her way was blocked and she had to run for her life amid a hail of broken road material.

## Canadians at White House

Hon. Vincent Massey, Canadian Minister to the United States, accompanied E. W. Beatty, chairman and president of the Canadian Pacific Railway, on a visit to President Hoover recently. They are here seen leaving the White House in Washington.

## ANGLO-CANADIAN COMEDienne

Beatrice Lillie, the vivacious Anglo-Canadian comedienne, is now in Hollywood preparing to make a talkie. She is the wife of Sir Robert Peel.

## Britain Acts On Liquor Shipments

**Will Introduce Bill To Safeguard Interests Of U.S.**

London, Eng.—The House of Commons, by a vote of 215 to 142, gave a Liberal member leave to introduce a bill to entitle the board of trade to suspend or cancel the certificate of any master, mate or engineer engaging in the illicit importation of intoxicating liquor into United States territory.

After Isaac Foot, Liberal member from Cornwall, had spoken for ten minutes advocating the measure, Frederick A. Macquisten, Conservative member from Argyll and a lawyer who sometimes acts professionally for the liquor trade, opposed the bill with a speech filled with humorous remarks.

Lady Astor, United States-born peeress and ardent temperance advocate, interrupted Macquisten several times.

## Night Editor Of Calgary Herald Dead

**P. W. Stone Was Well Known Throughout Canada**

Calgary.—Percy W. Stone, for more than ten years night editor of "The Calgary Herald" and known from coast to coast as one of Canada's veteran newspapermen, died, April 15, following a heart attack. He was 54 years of age. Prior to becoming associated with "The Herald," Mr. Stone worked on "The Winnipeg Telegram," and later became editor of "The Bassano Mail," and managing editor of "The Crag and Canyon" in Banff.

Mr. Stone was an Englishman by birth, but came to Canada as a boy and taught school in Ontario before coming west.

## Dirigible To Span Atlantic

London, Eng.—The British dirigible R-100 will attempt to bridge the Atlantic this spring, the first step toward the British dream of an air-laid empire. Meanwhile the Graf Zeppelin will start on its sixth trans-Atlantic trip. The United States, focal point of former air lines crossings, will be neglected, for the R-100 will point for Canada and the Graf for South America.

## Lightning Wrecks Radio

Monkton, Sask.—The radio set was completely demolished and the house-ward set on fire when the home of Alfred Jensen, here, was struck by lightning during a severe thunderstorm, accompanied by heavy rains.

## Establishes New Speed Record

**Pilot Buchanan Makes Fast Flight From Winnipeg To Regina**

Regina.—A flight from Winnipeg to Regina in two hours and 45 minutes establishing a new speed record for that leg of the Western Canada air mail service, was made by Pilot W. J. Buchanan on April 13, in a Fokker F-14 machine.

He left Winnipeg at 9:05 p.m. (Winnipeg time), or 8:05 p.m. Regina time, and arrived here at 10:50 p.m. (Regina time).

There was a 25-mile an hour wind blowing from the southeast during most of the flight, but unfavorable weather made it necessary for him to "fly blind" from Broadway to Regina. The total distance is 230 miles.

## Surveyed Air Mail Routes

**Superintendent Of Airways Returns To Ottawa From West**

Ottawa.—Making a two-day stopover from High River, Alberta, to the capital, Squadron Leader J. H. Tudhope, superintendent of airways for the civil aviation branch, has returned from a survey of air mail routes in Western Canada. The return flight of approximately 500 miles was made in 17 hours and 50 minutes flying time. Five stops were made.

Major Tudhope's survey had its purpose an investigation of possible routes for the five lines in Western Canada of the trans-Canada Air Mail Service, to be completed in the near future.

## Impressed With Bay Port

**Development At Churchill Was Surprise To Premier Bracken**

The Pas, Man.—Churchill was probably not thrown open to the public this year is the opinion of Premier John Bracken, who has returned from his first visit to the northern seaport.

Mr. Bracken stated it would seem unlikely that the public as provision has as yet been made for public utilities other than those for the government men who will be employed there this year.

Premier Bracken stated he was impressed with the magnitude of the development at Churchill.

## PROPORTIONAL REPRESENTATION VOTING SYSTEM

Ottawa, Ont.—Proportional representation, which now is occupying the attention of the administration and of the opposition members as well, is not a new subject in Ottawa. In the House of Commons a few days ago, Premier Mackenzie King intimated the government is giving the matter consideration and said the progress made during the session will determine whether or not a bill is introduced.

In 1921, a committee of the House investigated "P.R." The committee recommended taking a plebiscite because it was "not prepared to recommend the application in the next general election." The committee was impressed by the arguments presented by the advocates of the system and in its report said:

"It must be apparent that the present system of elections in single-member constituencies meets fully the purpose intended only when no more than two candidates are nominated. Recent experiences in elections in Canada have brought home to our people the fact that when three or more candidates present themselves in single-member constituencies, the candidates declared elected may, and often does, represent merely a minority of those voting in the constituency."

"It was after the 1921 election that a debate and division took place on the report. W. G. Good, Progressive member for Brant in 1923, introduced a motion calling for the adoption of "P.R." in multi-member constituencies. Practically all the then leaders took part in the debate and in the division that followed, the motion was lost. Among those who voted for it were Premier Mackenzie King, Hon. W. S. Fielding, Hon. Ernest Lapointe, Minister of Justice, Right Hon. Arthur Meighen then leader of the Opposition, Conservative party led the forces opposed to the motion although party lines were not followed rigidly in the division. Hon. Lucien Cannon, solicitor-general and Hon. James Macpherson, Minister of Trade and Commerce, were two of the present cabinet ministers who voted in opposition to the motion."

## WORK OF NAVAL PARLEY GIVEN IN WHITE PAPER

London, Eng.—Parliament has received a "white paper" which summarized the work achieved thus far by the London naval conference.

Among other points Premier MacDonald cited the tonnage reductions negotiated and the attendant savings in money. In conclusion the "white paper" says:

"Important as are these financial savings yet a more important result of this first stage of the London conference has been the elimination of competitive building in cruisers and auxiliary craft between the British Commonwealth, the United States and Japan, with all this implies in mutual improvement of their political relations."

"Figures on agreement between those powers have been placed at a low level, and it is the earnest hope of His Majesty's government that during the next stage of the conference agreement may be reached with the French and Italian governments at levels which will permit their programs of tonnage figures being incorporated in the agreement already reached between the other powers."

"After signature of the treaty the conference will adjourn in order to give further time for negotiations between the French and Italian governments with a view to settlement of the difficulties which as yet prevent complete agreement."

"These negotiations may be prolonged and it is necessary that delegations from distant countries, which are not as immediately concerned, should remain in London while the conversations are proceeding. It is for this reason that adjournment has been decided upon."

## Will Not Seriously Affect Canadian Trade

**Cancellation Of Exchange Announces Tariff Changes In British House**

Ottawa.—Tariff experts of the Dominion Government are busily studying the tariff changes announced by Rt. Hon. Philip Snowden, chancellor of the exchequer, in the "British House of Commons." The general opinion expressed is that they will not seriously affect Canadian trade. The fact that the McKenna duties remain on motor cars, motion picture films and musical instruments is most important.

The removal of the McKenna duties would have wiped out the advantage which Canada now has over the United States in the British market and the products would be allowed in free from both countries. According to information here based on Mr. Snowden's announcement, the first of safeguarding duties which was out of question is that on lace and embroidery. This duty was put on for five years and would end on July 1 next. As Canada does not export this product it will not affect her. The duty on cutlery comes off on December 22 next.

## Prince Flies From Khartoum To Cairo

**Expected To Leave Africa Very Shortly For England**

Khartoum, Upper Egypt.—Prince of Wales and the party which was with him throughout his hunting in British East Africa, left here in six aeroplanes for Cairo. They will leave there for England shortly.

The Prince, before boarding the plane, put on a woolly jacket and scarf over a khaki shirt and shorts, because of the chilly morning. Hardly had his plane, with four escort planes disappeared in the air, when five other planes bearing other members of the party and baggage, departed.

## Diocese Will Be Transferred

The Pas, Man.—Plans for establishment of Roman Catholic diocese headquarters at Churchill, on Hudson Bay, were revealed here by Rt. Rev. A. Turqueti, O.M.I., bishop at Chesterfield Inlet. The "Bishop of the Arctic" stated that no definite date had been set for transfer of the diocese headquarters from Chesterfield to Churchill.

## Boys Killed In Fire

Lucas, Sicily.—Fifteen boys, ranging in ages between 15 and 18, were killed in a moviehouse fire and stampee. A general rush for the exits, following outbreak of fire in the film room, was the cause of the fatalities. In addition, three others were seriously injured and five were slightly hurt.

### The Safe Way

THE home is no place for valuable papers—neither is your office. For a small sum, you can have the protection of a Safety Deposit Box behind the steel doors of our vault.

Your personal inspection is invited.

*"The only safe place for wills, bonds, stocks, deeds, policies, family papers, small jewellery, etc."*

## Local and General Items

Miss Julia Dutil is down from Calgary on a visit to friends.

Miss Frances Tompkins spent Easter holidays at her home here.

A b'r Easter dance takes place in the Landbreck hall tomorrow night.

Mr. H. Mellor-Langdale, of Lethbridge, attended the musical festival here.

George Kafoury is down from Calgary and is rushing around to meet his old friends.

Miss Podbielski, who was down from Fernie for the musical festival, returned home this morning.

Misses Isobel and Dorothy Dicken were down from Fernie for the musical festival, and returned home today.

Mrs. James Paden, who recently suffered a paralytic stroke, has returned to her home on the North Fork, considerably improved.

LOST—At the Opera House, or on the road to the McPhail home, a child's wrist watch. Finder will please leave same with Mrs. J. McPhail.

A heading in one of our exchanges reads: "Should a boy marry wealth?" Well, judging from what the eye can see nowadays, there is not much else to marry.

Remember the dance to be held at Bellevue on Wednesday night next. Also the dance in the Union Hall at Hillcrest on May the 1st, under the auspices of the Italian Society.

The marriage of Edward, youngest son of Mr. and Mrs. S. Enn's, to Miss Doris, eldest daughter of Mr. and Mrs. T. J. Williams, took place recently.

The new Consolidated Mining & Smelting Company's Gypsy Moth plane, piloted by Carl Gill, of Cranbrook, enroute from The Pas, Manitoba, to Kaslo, B.C., passed through the Crows' Nest Pass this morning.

The little Edmonton boy who plays the saxophone so cleverly, captivated the audience by his voluntary exhibition on Tuesday night. The little lad had hoped to compete, but not residing in the district, such was impossible.

A dance, under the auspices of the West Canadian Collieries' Band, will be held in the Moose hall here on the night of Wednesday, May the 7th. A similar affair will take place in the I.O.O.F. hall at Bellevue on the night of May the 16th. The Altermatt orchestra will render music on both occasions.

Members of the local lodge of Oddfellows will celebrate the anniversary of the Order by meeting in the hall on Tuesday night next, to which meeting the Rebekahs have been invited. The official date is April the 26th, but as that date falls on a Saturday, it was considered wise to hold the celebration on Tuesday instead.

Val Rinaldi was told a few days ago of the forthcoming eclipse of the sun and of the magnetic influence of one of the planets that will be responsible. Since then he has visited Barstall's blacksmith shop and now has his pockets so full of old bolts, etc., that there is little possibility of his leaving the earth's surface.

Jack Egan, who plays a featured role in "Broadway Scandals," the Columbia talking, singing and dancing comedy-drama scheduled to play at the Orpheum Theatre on Thursday, Friday and Saturday, played the Keith-Orpheum Circuit for eight years before entering pictures. He has a beautiful voice and is a versatile dancer; and is therefore well-suited to play the role of a song and dance man in this current production. Sally O'Neill and Carmel Myers play the other featured roles. George Archinbaud directed.

The very latest on the Scotch: Pete McPherson takes off the radiator cap because it's raining.

The spring golf dance will be held in the Greenhill Grill on Friday next, April 25th. Good orchestra in attendance. Lunch served at midnight. Couple \$1.50.

Noble McDonald, of Bellevue, was a patient in hospital at Claresholm on Wednesday of last week, having turned over his car on the gravelled highway and sustained a fractured arm.

There was a time when some folks actually felt that a person would land in hell as quick as they could be told to go there. With the increasing speed of conveyances nowadays, it will soon be possible to land there even quicker than that.

The new officers of the Pincher Creek Lodge of Elks include: Thomas Flaherty, exalted ruler; C. S. Buchanan, leading knight; H. Beasberry, loyal knight; R. B. Buchanan, leading knight; Doc. Macintosh, treasurer; A. H. Taylor, secretary.

A new vote of the miners at Coleman this week resulted almost unanimously in favor of continuation of agreement with Dr. R. P. Borden. And a vote of the miners of Blairmore yesterday was even more unanimous for signing up a new agreement.

A recital and concert will be given in the Lodge Hall here on the evening of Friday, May 22nd, by Coleman pupils of Mrs. P. Salt, of Hillcrest. The programme will be staged at 5 p.m. for the benefit of children, for which an admission fee of ten cents will be charged; and the evening programme for adults will start at the same place at 8 p.m., admission fee being 50c. The entertainments are being staged under the auspices of Greenhill Temple No. 10, Pythian Sisters.

After hearing the Hillcrest male voice choir perform at the festival here on Tuesday and Wednesday nights, many people are asking why the necessity of ever inviting traveling talent. Their performance was equally as good as could be produced by the Imperial Welsh Singers, to the average mind. The adjudicators paid very high compliments to the choir and expressed the hope that other organizations of the sort will be mustered for competition at the next Crows' Nest Pass festival.
